Migration – push/pull factors and pros and cons

Climate Change – causes and effects

Antarctica – challenges and opportunities

Glaciation – glacial processes

**Useful revision resources:**

- Knowledge organiser
- Exercise book
- Websites:

**Revision Tips**

- **Create something new:** Just sitting and re-reading your notes isn't revision! Make something new - a knowledge organiser, a concept map, flashcards, a quiz... anything that makes you work with the knowledge actively.
- **Don't forget to practise:** Practising written responses is important to get comfortable with extended pieces of writing. Use the past papers from the exam boards and example questions provided by your class teacher.
- **Not feeling motivated? Revise little and often:** If you struggle to revise for extended periods of time, try to revise for a few minutes each day instead. You could use quotation banks or flashcards to test yourself on key quotes and writing WHAT HOW WHY paragraphs.
