### Key Facts:

Woods and their trees provide shelter, food and safe places for animals and insects to hide.

The four seasons are spring, summer, autumn, and winter.

- Trees prepare for winter during Autumn.
- The days get shorter during Autumn

This is the story of **three baby owls** who wake up one night in their hole in the tree to find that their mother has gone, so they sit on the branch and wait, wondering when she will return. At last she does, and they all bounce up and down with joy, welcoming her
