the risk of transmis	are in place which re sion by limiting the n in contact with each o ne group	umber Dotails:-				
The school keeps a in each group, and	a record of pupils and any close contact th een children and staf	d staff to ask pu at record ev f in they have staff to ke definitive	nate process. do not need pils to veryone e spent time day or ask eep records in at is overly			
groups that are the can be achieved, it will help to reduce could be asked to i	ay be able to implem e size of a full class. I is recommended, as the number of people isolate should someo ill with coronavirus ((f that s this e who one in To be ab full range subjects, interventi managing practical	le to offer a of ons and to g the logistics d around			

	 implement the following Year group sized 'bubbles' Nursery Reception & Reception/Ye ar 1 (JM and JK classes) Year 1 & Year 2 (RB & CV Classes) Year 3 & Year 4 (BA, KS & JH Classes) Year 5 & Year 6 (SM, VR & CH Classes) 		
In the younger years in Secondary Schools (key stage 3), schools may be able to implement groups that are the size of a full class. If that can be achieved, it is recommended, as this will help to reduce the number of people who could be asked to isolate should someone in group become ill with coronavirus (COVID-19).			
In Secondary Schools, and certainly in the older age groups at key stage 4 and key stage 5, the groups are likely to need to be the size of a year group to enable schools to deliver the full range of curriculum subjects and students to receive specialist teaching. If this can be achieved with small groups, they are recommended			
Whatever the size of the group, they are kept apart from other groups and older children are encouraged to keep their distance within their groups	Staggered start/end of day using the different entrances to the school 8:40- 9am(12:15pm nursery pm session) & 2:50- 3:20pm (11:15am Nursery am session)to keep bubbles separate Bubble timetable for outdoor play & lunch provision		
Schools with the capability to do it should take steps to limit interaction, and the sharing of rooms and social spaces between groups as much as possible	Bubbles to use agreed classroom space, agreed outdoor space and agreed outdoor provision	\boxtimes	
It is recognised that younger children will not be able to maintain social distancing, and it is	Utilise space for each bubble - One additional classroom

	This would also			
	apply to resources			
Outdoor playground equipment should be	used inside and	\boxtimes		
more frequently cleaned	outside by			
	wraparound care			
	providers			

Shared Resources				
For individual and very frequently used equipment, such as pencils and pens, it is recommended that staff and pupils have their own items that are not shared	Individual packs provided , where possible and practical	×		
Classroom based resources, such as books and games, can be used and shared within the bubble; these are cleaned regularly, along with all frequently touched surfaces	Cleaning schedule in place	\boxtimes		
Resources that are shared between classes or bubbles, such as sports, art and science equipment should be cleaned frequently and meticulously and always between bubbles, or rotated to allow them to be left unused and out of reach for a period of 48 hours (72 hours for plastics) between use by different bubbles	Cleaning schedule in place			
Pupils can bring essentials such as lunch boxes, hats, coats, books, stationery, bags and mobile phones (depending on school policy) in to school	Details in Parent Handbook and COVID Home School Agreement	\boxtimes		
Pupils and teachers can take books and other shared resources home, although unnecessary sharing should be avoided, especially where this does not contribute to pupil education and development. Rules on hand cleaning, cleaning of the resources and rotation apply to these resources	It is very difficult to adequately clean exercise books so the school may need to isolate the books for 48 hours before marking			
Devices/ laptops/tablets etc. that are brought from home to school and back again are cleaned at the start and end of the day	All staff advised of protocol Appropriate cleaning wipes available	\boxtimes		
Spread of Coronavirus to Staff, Pupils and Fa	amilies, Visitors and C	Contracto	ors	
Contact with individuals who are unwell is minimised by ensuring that those who have coronavirus (COVID-19) symptoms, or who have someone in their household who does, do not attend school	Ensuring that pupils, staff and other adults do not come into the school if they have <u>coronavirus (COVID-</u> <u>19) symptoms</u> , or have tested positive in the last 10 days, and ensuring anyone developing those symptoms during the school day is sent home, are essential actions to reduce the risk in schools and further drive down transmission of			

transmission of

	coronavirus (COVID-		
	19)		
The school recognises that if they have two or more confirmed cases within 14 days, or an overall rise in sickness absence where coronavirus (COVID-19) is suspected, they may have an outbreak and must continue to work with their local health protection team who will be able to advise if additional action is required			
Those pupils whose doctors have confirmed they are still Clinically Extremely Vulnerable are not to attend education whilst the national restrictions are in place. Schools will need to make appropriate arrangements to enable them to continue their education at home.	Advice for those identified through a letter from the NHS or a specialist doctor as in the group deemed clinically extremely vulnerable		
Staff who are Clinically Extremely Vulnerable MUST NOT attend the workplace during the period of national restrictions	Individuals in this group have been identified through a letter from the NHS or their GP. Staff should be supported to be able to continue working from their home where possible <u>Clinically Extremely</u> <u>Vulnerable</u>		
Staff and pupils who are Clinically Vulnerable or have underlying health conditions but are not clinically extremely vulnerable, may continue to attend school in line with current guidance.	See Section 9 of <u>New-national-</u> <u>restrictions-from-5-</u> <u>november</u>		
Staff who are in the clinically vulnerable group can work in school, taking particular care to observe good hand and respiratory hygiene, minimising contact and maintaining social distancing. (The only exception to this may be in some very high alert areas, where the government issue NEW notifications to shield to those most vulnerable individuals)	Adults should maintain 2 metre distance from others, and where this is not possible avoid close face to face contact and minimise time spent within 1 metre of others. While the risk of transmission between young children and adults is likely to be low, adults should continue to take care to socially distance from other adults including older children/adolescents An Individual Risk Assessment will be needed. Advice		

			1	
	sought on a case by case basis. Individual Risk Assessments will need to be subject to regular review			
People who live with those who are clinically extremely vulnerable or clinically vulnerable can and do attend the workplace	An Individual Risk Assessment may be needed. Advice sought on a case by case basis. Individual Risk Assessments will need to be subject to regular review			
Pregnant women are in the 'clinically vulnerable' category	School must complete the New and Expectant Mothers risk assessment as well as the Covid Individual risk assessment. Both the New and Expectant Mothers and the Individual Risk Assessment must be reviewed prior to 28 weeks when risk factors increase. Individual Risk Assessments will need to be subject to regular review <u>RCOG Q&A -covid- 19-virus-infection- and-pregnancy</u>			
Where it is necessary to use supply staff and peripatetic teachers, those individuals will be expected to comply with the school's arrangements for managing and minimising risk, including taking particular care to minimise contact and maintain as much distance as possible from other staff	To minimise the numbers of temporary staff entering the school premises, and secure best value, schools may wish to use longer assignments with supply teachers and agree a minimum number of hours across the academic year			
Specialists, therapists, clinicians and other support staff for pupils with SEND provide interventions as usual		X		
Volunteers may be used to support the work of the school, as would usually be the case	Mixing of volunteers across groups	\boxtimes		

			
	should be kept to a minimum, and they should remain 2 metres from pupils and staff where possible		
Access to PPE should be available where there is contact with diagnosed or suspected person with covid-19	See Inadequate Personal Protection & PPE section of this risk assessment		
Site User Becoming Unwell			
If anyone in the school becomes unwell with a new, continuous cough or a high temperature, or has a loss of, or change in, their normal sense of taste or smell (anosmia), they must be sent home and advised to follow the guidance which sets out that they must self- isolate for at least 10 days and should <u>arrange to have a test</u> to see if they have coronavirus (COVID-19). Other members of their household (including any siblings) should self- isolate for 14 days from when the symptomatic person first had symptoms	stay at home: guidance for households with possible or confirmed coronavirus (COVID- 19) infection If they have tested positive whilst not experiencing symptoms but develop symptoms during the isolation period, they should restart the 10-day isolation period from the day they develop symptoms		
If a pupil is awaiting collection, they should be moved, if possible, to a room where they can be isolated behind a closed door, depending on the age of the Pupils and with appropriate adult supervision if required. Ideally, a window should be opened for ventilation.	If it is not possible to isolate them, move them to an area which is at least 2 metres away from other people		
If the pupil needs to go to the toilet while waiting to be collected, they should use a separate toilet if possible. The toilet should be cleaned and disinfected using standard cleaning products before being used by anyone else			
PPE should be worn by staff caring for the pupil while they await collection if a distance of 2 metres cannot be maintained (such as for a very young pupil or a pupil with complex needs)	See Inadequate Personal Protection & PPE section of this risk assessment	\boxtimes	
In an emergency, call 999 if the pupil is seriously ill or injured or their life is at risk.	Anyone with coronavirus (COVID- 19) symptoms should not visit the GP, pharmacy, urgent care centre or a hospital

	exceptional			
School determines how to prioritise the	circumstance that an			
distribution of their test kits in order to	individual becomes			
minimise the impact of the virus on the	symptomatic and	\boxtimes		
education of their pupils.	schools believe they			
	may have barriers to			
	accessing testing			
	elsewhere.			
	These kits can be			
	given directly to staff			

	or parents and carers collecting a child who has developed symptoms at school. In particular, these tests kits will also help ensure that symptomatic staff can also get a test and if they test negative, can return to work as soon as they no longer have symptoms of coronavirus (COVID- 19). Further information is provided in our guidance <u>Coronavirus</u> (COVID-19): test kits for schools and FE providers.		
Schools must ensure that staff members and parents/carers understand that they will need to be ready and willing to provide details of anyone they have been in close contact with if they were to test positive for coronavirus (COVID-19) or if asked by NHS Test & Trace			
Schools must ensure that staff members and parents/carers understand that they will need to be ready and willing to <u>self-isolate</u> if they have been in close contact with someone who develops coronavirus (COVID-19) symptoms or someone who tests positive for coronavirus (COVID-19)	Household members of those contacts who are sent home do not need to self- isolate themselves unless the child, young person or staff member who is self-isolating subsequently develops symptoms	×	
Parents and staff are asked to inform the school immediately of the results of a test	Schools must not share the names or details of people with coronavirus (COVID-19) unless essential to protect others	×	
If someone with symptoms tests negative for coronavirus (COVID-19), then they need should stay at home until they are recovered as usual from their illness but can safely return thereafter. The only exception to return following a negative test result is where an individual is separately identified as a close contact of a confirmed case, when they will	Schools should not request evidence of negative test results or other medical evidence before admitting children or welcoming them back after a period of self-isolation		

need to self-isolate for 14 days from the date of that contact			
Someone who is self-isolating because they have been in close contact with someone who has tested positive for coronavirus (COVID- 19) starts to feel unwell and gets a test for coronavirus themselves, and the test delivers a negative result, they must remain in isolation for the remainder of the 14-day isolation period	This is because they could still develop coronavirus (COVID- 19) within the remaining days		
If someone with symptoms tests positive, they should follow the <u>'stay at home: guidance for</u> <u>households with possible or confirmed</u> <u>coronavirus (COVID-19) infection'</u> and must continue to self-isolate for at least 10 days from the onset of their symptoms and then return to school only if they do not have symptoms other than cough or loss of sense of smell/taste. This is because a cough or anosmia can last for several weeks once the infection has gone. The 10-day period starts from the day when they first became ill. If they still have a high temperature, they should continue to self-isolate until their temperature returns to normal. Other members of their household should all self-isolate for the full 14 days			
Schools send home those people who have been in close contact with the person who has tested positive, advising them to self-isolate for 14 days since they were last in close contact with that person when they were infectious	Close contact means: - direct close contacts - face to face contact with an infected individual for any length of time , within 1 metre, including being coughed on, a face to face conversation, or unprotected physical contact (skin-to-skin) - proximity contacts - extended close contact (within 1 to 2 metres for more than 15 minutes) with an infected individual - travelling in a small vehicle, like a car, with an infected person		
School must take swift action when they become aware that someone who has attended has tested positive for coronavirus	This can be reached by calling the DfE Helpline on 0800		

and must contact the dedicated advice service introduced by Public Health England (PHE) and delivered by the NHS Business Services Authority	046 8687 and selecting option 1 for advice on the action to take in response to a positive case. Schools will be put through to a team of advisers who will		
	inform them of what action is needed based on the latest public health advice		
Public Health England has good evidence that routinely taking the temperature of pupils by the school is not recommended as this is an unreliable method for identifying coronavirus (COVID-19) so this does not take place			
Inadequate Hand Washing/Personal Hygiene	•		
Staff/pupils/cleaners/contractors etc. will be reminded to clean their hands regularly, including when they arrive at school, when they return from breaks, when they change rooms and before and after eating	Ensure that staff have sufficient time to wash their hands regularly, as frequently as pupils		
Hands are washed with liquid soap & water for a minimum of 20 seconds		\boxtimes	
The school has considered whether they have enough hand washing or hand sanitiser 'stations' available so that all pupils and staff can clean their hands regularly		\boxtimes	
Alcohol based hand cleansers/gels can only be used if soap and water are not available, but is not a substitute for hand washing. Such gels MUST ONLY BE USED UNDER CLOSE SUPERVISION. In normal circumstances pupils should not be using alcohol based hand cleansers because of the risk of ingestion.	Skin friendly skin cleaning wipes can be used as an alternative		
The 'catch it, bin it, kill it' approach is very important and is promoted	CAATCCH IT Comment of the solutionImage: Comment of the solutionEmment of easily, Always carry courd or sneeze.Image: Comment of the solutionBIN IT BIN IT BIN IT SolutionImage: Comment of the solutionBIN IT BIN IT BIN IT SolutionImage: Comment of the solutionBIN IT BIN IT BIN IT SolutionImage: Comment of the solutionBIN IT BIN IT BIN IT SolutionImage: Comment of the solutionBIN IT BIN IT<

Risk assessments for pupils with complex needs that may struggle to maintain as good		\boxtimes	

respiratory hygiene as their peers, for example those who spit uncontrollably or use saliva as a sensory stimulant, have been updated in order to support these pupils and the staff working with them			
Inadequate Personal Protection & PPE			
Face coverings are currently not in use by pupils in Primary schools as the risks are considered to be lower as pupils and staff are mixing in consistent groups, and because misuse may inadvertently increase the risk of transmission. There may also be negative effects on communication and thus education			
In schools that are in areas where the COVID Alert Level is high or very high, or during periods of National Restrictions, adults (staff, visitors and contractors) in Primary Schools DO wear face coverings in areas outside of the classroom at the discretion of the Head Teacher			
In schools where pupils in year 7 and above are educated, face coverings must be worn by adults and pupils when moving around the premises, outside of classrooms, such as in corridors and communal areas where social distancing cannot easily be maintained	Some individuals are exempt from wearing <u>face</u> <u>coverings</u> . This applies to those who: - cannot put on, wear or remove a face covering because of a physical or mental illness or impairment or disability - speak to or provide assistance to someone who relies on lip reading, clear sound or facial expression to communicate The same exemptions will apply in education settings, and we would expect teachers and other staff to be sensitive to those needs.		
In the event of new local restrictions being agreed, schools will ensure they communicate quickly and clearly to staff, parents and pupils			

that the new arrangements require the use of face coverings in certain circumstances			
It is not necessary to wear face coverings in the classroom, where protective measures already mean the risks are lower, and where they could inhibit learning		\boxtimes	
In such circumstances as face coverings are to be worn in school they must be worn correctly	https://www.gov.uk/g overnment/publicatio ns/face-coverings-in- education/face- coverings-in- education		
Clear instructions are provided to staff and pupils on how to put on, remove, store and dispose of face coverings, to avoid inadvertently increasing the risks of transmission			
Safe wearing of face coverings requires cleaning of hands before and after touching – including to remove or put them on – and the safe storage of them in individual, sealable plastic bags between use			
Where a face covering becomes damp, it should not be worn and the face covering should be replaced			
Where anybody is struggling to access a face covering, or where they are unable to use their face covering due to having forgotten it or it having become soiled or unsafe, the school has taken steps to have a small contingency supply available to meet such needs			
School has a procedure for removing face coverings when those who use them arrive at school, and when to wear face coverings at school in certain circumstances	This procedure should be communicated clearly to pupils and staff		
PPE will need to be worn by a member of staff if a pupil becomes unwell with symptoms of coronavirus while in their setting and needs direct personal care until they can return home. A face mask should be worn by the supervising adult if a distance of 2 metres cannot be maintained. If contact with the pupil is necessary, then gloves, an apron and a face mask should be worn by the supervising adult. If there is a risk of splashing to the eyes, for example from coughing, spitting, or vomiting, then eye protection should also be worn	safe working in education, childcare and children's social care		
Visitors, Contractors & Spread of Coronaviru	s		
All visits to the school are restricted to those that are absolutely necessary		\boxtimes	
Parent and carer visits are suspended for:new admissions,		\boxtimes	

 settling-in children new to the setting attending organised performances 			
All visitors and contractors must make pre- arranged appointments or they will not be allowed on site			
School ensures site guidance on physical distancing and hygiene is explained to visitors and contractors on or before arrival			
Where visits can happen outside of school		\boxtimes	
hours, they are arranged as such Contractors to attend by agreement only after school have satisfied themselves that it is necessary for the visit to take place at that time and that all required controls are in place to allow the work to continue safely		×	
Contractors to provide updated risk assessment prior to visit which includes their own controls round infection spread prevention	Times of visits may need to be adapted to take in to account the ability to maintain appropriate social distancing measures and availability of resources to effectively clean following the visits		
As normal, school engages with their local immunisation providers to provide immunisation programmes on site, ensuring these are delivered in keeping with the school's control measures	These programmes are essential for children's health and wellbeing		
A record is kept of all visitors with sufficient detail to support rapid contact tracing if required by NHS Test and Trace.		\boxtimes	
Out-of-school activities (including wraparound care) may continue to operate if their primary purpose is providing registered childcare, or where they are offering other childcare activities, where this is reasonably necessary to enable parents to: • work or search for work • undertake training or education	See Out-of-school activities and wraparound childcare section of <u>Guidance for</u> <u>education-and-</u> <u>childcare-settings-</u> <u>new-national-</u> <u>restrictions-from-5-</u> <u>november-2020</u>		
All other out of school activities, including lettings, not being primarily used by parents for the above purposes, should close for face- to-face provision for the duration of the national restrictions			
In out-of-school settings, face coverings should be used where it is a requirement of the indoor setting or staff are likely to come into contact with other members of the public (complying with relevant coronavirus (COVID- 19) sector guidance)	See Out-of-school activities and wraparound childcare section of <u>Guidance for</u> <u>education-and-</u> <u>childcare-settings-</u> <u>new-national-</u>		

	restrictions-from-5-		
	november-2020		
Inadequate Ventilation			
Occupied spaces must always be well ventilated and a comfortable teaching environment maintained	This can be achieved by a variety of measures including: mechanical ventilation systems – these should be adjusted to increase the ventilation rate wherever possible, and checked to confirm that normal operation meets current guidance (if possible, systems should be adjusted to full fresh air or, if not, then systems should be operated as normal as long as they are within a single room and supplemented by an outdoor air supply)		
Ventilate spaces with outdoor air	natural ventilation – if necessary external opening doors may also be used provided this doesn't compromise safeguarding measures		
Where possible, occupied room windows should be open		\boxtimes	
Keep toilet ventilation in operation as much as possible while building is occupied			
Switch air handling units with recirculation to 100% outdoor air where this is not possible, systems are operated as normal	Further advice on this can be found in Health and Safety Executive guidance on <u>air conditioning</u> <u>and ventilation</u> <u>during the</u> <u>coronavirus</u> <u>outbreak</u> and <u>CIBSE</u> <u>coronavirus (COVID- 19) advice</u> .		
Prop doors open, where safe to do so (bearing in mind fire safety and safeguarding), to limit use of door handles and assist with creating a throughput of air	Fire doors must not be propped open unless they have a	\boxtimes	

	self-closing hold		
	open device fitted		
In cold weather where the school heating system is activated, windows are open to provide trickle ventilation rather than being fully open	natural ventilation – opening windows (in cooler weather windows should be opened just enough to provide constant background ventilation, and opened more fully during breaks to purge the air in the space)		
Consideration given to opening high level windows in preference to low level to reduce draughts			
Consideration given to only opening every other window instead of all windows when the heating is activated			
The school offers flexibility to allow additional, suitable indoor clothing	For more information see <u>School uniform</u>	\boxtimes	
Furniture rearranged where possible to avoid direct drafts			
Heating should be used as necessary to ensure comfort levels are maintained particularly in occupied spaces		\boxtimes	
When heating is activated and windows are on trickle vent, consideration is given to employing desk fans to move any stagnant pockets of air	Desk fans are pointed away from people and pointed at walls etc.		
If school needs to use additional heaters they only use sealed, oil filled electric heaters	Electric fan heaters used sparingly due to increased fire and electrical risk		
Arrangements for Boarding Schools During	Pandemic		
Where pupils travel from abroad to attend boarding schools, the school needs to plan for their collection and transfer from their point of arrival	Schools need to have plans in place for the collection and transfer of these pupils to school, which need to be explained to pupils and their parents before they travel. Advice to help schools, pupils and parents is provided in <u>residential settings</u> <u>with international</u> <u>students guidance</u> and in <u>how to self- isolate when traveling</u> to the UK guidance		

Where they have travelled from, or have stopped at, a country or territory that is not on the travel corridors list, pupils will be required to self-isolate for 14 days from the day they boarding school □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □
