

## Summer tapestry project

We would like you to upload a photo or short video showing something that your child enjoys doing during the summer. This might be:

- Somewhere that you visit together
- A family event
- Something that they have made
- A hobby or interest that they have (sport, music, dancing, art ... )

Please upload this onto tapestry by the end of the first full week back in September, so that your child can share this with the class.

- Give your Project the title : Summer project
- Please add a comment so that we know where you went or what they liked doing (in case they can't remember or are nervous to talk about it)
- The project can be completed and posted on the Tapestry App or website at any time before the deadline
- All projects will be shared with the class during the first few weeks of term

You can access Tapestry using your browser or you can download the app to your phone or tablet. If you have any difficulties accessing this account please speak to us in September

Thank you,

Reception Staff
