Online Safety Policy
Gusford Primary School

Scope of the Policy

This policy applies to all members of the school community (including staff, governors, pupils, volunteers, parents/carers, visitors, community users) who have access to and are users of school digital technology systems, both in and out of the school.

The Education and Inspections Act 2006 empowers Headteachers to such extent as is reasonable, to regulate the behaviour of pupils when they are off the school site and empowers members of staff to impose disciplinary penalties for inappropriate behaviour. This is pertinent to incidents of online-bullying or other online safety incidents covered by this policy, which may take place outside of the school, but is linked to membership of the school. The 2011 Education Act increased these powers with regard to the searching for and of electronic devices and the deletion of data. In the case of both acts, action can only be taken over issues covered by the published Behaviour Policy.

The school will deal with such incidents within this policy and associated behaviour and anti-bullying policies and will, where known, inform parents/carers of incidents of inappropriate online safety behaviour that take place out of school.

Roles and Responsibilities

The following section outlines the online safety roles and responsibilities of individuals and groups within the school:

Governors

Governors are responsible for the approval of the online safety policy and for reviewing the effectiveness of the policy. This will be carried out by the Governors receiving regular information about online safety incidents and monitoring reports. A member of the Governing Body has taken on the role of Safeguarding Governors. The role of the Safeguarding Governor will include:

- termly meetings with the Online Safety Co-ordinator
- half termly monitoring of online safety incident logs
- reporting to relevant Governors

Headteacher
- The Headteacher has a duty of care for ensuring the safety (including online safety) of members of the school community, though the day to day responsibility for online safety will be delegated to the Online Safety Lead.
- The Headteacher and (at least) another member of the Senior Leadership Team should be aware of the procedures to be followed in the event of a serious online safety allegation being made against a member of staff. (see flow chart on dealing with online safety incidents – included in a later section – "Responding to incidents of misuse" and relevant Academy Trust disciplinary procedures).
- The Headteacher and Senior Leaders are responsible for ensuring that the Online Safety Lead and other relevant staff receive suitable training to enable them to carry out their online safety roles and to train other colleagues, as relevant.
- The Senior Leadership Team will receive regular monitoring reports from the Online Safety Lead.

Online Safety Lead
- leads the Online Safety within the school

- takes day to day responsibility for online safety issues and has a leading role in establishing and reviewing the school online safety policies/documents
- ensures that all staff are aware of the procedures that need to be followed in the event of an online safety incident taking place.
- provides training and advice for staff
- liaises with the Local Authority/MAT/relevant body
- liaises with school technical staff
- receives reports of online safety incidents and creates a log of incidents on MyConcern to inform future online safety developments,
- meets regularly with Safeguarding Governor to discuss current issues, review incident logs.
- attends relevant meetings of Governors
- reports regularly to Senior Leadership Team

Teaching and Support Staff

Are responsible for ensuring that:

- they have an up to date awareness of online safety matters and of the current school online safety policy and practices
- they have read, understood and signed the staff acceptable use policy/agreement (AUP/AUA)
- they report any suspected misuse or problem to the Headteacher/Senior Leader/Online Safety Lead/DSL for investigation/action/sanction
- all digital communications with pupils/parents/carers should be on a professional level and only carried out using official school systems
- online safety issues are embedded in all aspects of the curriculum and other activities
- pupils understand and follow the Online Safety Policy and acceptable use policies
- pupils have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- they monitor the use of digital technologies, mobile devices, cameras, etc. in lessons and other school activities (where allowed) and implement current policies with regard to these devices
- in lessons where internet use is pre-planned pupils should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches

Designated Safeguarding Lead

Should be trained in online safety issues and be aware of the potential for serious child protection/safeguarding issues to arise from:

- sharing of personal data
- access to illegal/inappropriate materials
- inappropriate on-line contact with adults/strangers
- potential or actual incidents of grooming
- online-bullying

Pupils:
- are responsible for using the school digital technology systems in accordance with the pupil acceptable use agreement
- have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- need to understand the importance of reporting abuse, misuse or access to inappropriate materials and know how to do so
- will be expected to know and understand policies on the use of mobile devices and digital cameras. They should also know and understand policies on the taking/use of images and on online-bullying.

- should understand the importance of adopting good online safety practice when using digital technologies out of school and realise that the school's online safety policy covers their actions out of school, if related to their membership of the school

Parents/carers

Parents/carers play a crucial role in ensuring that their children understand the need to use the internet/mobile devices in an appropriate way. The school will take every opportunity to help parents understand these issues through parents' evenings, newsletters, letters, website, social media and information about national/local online safety campaigns/literature including membership to the National Online Safety Hub (http://nationalonlinesafety.com/enrol/gusford-community-primary-school).

Parents and carers will be encouraged to support the school in promoting good online safety practice and to follow guidelines on the appropriate use of:

- digital and video images taken at school events
- their children's personal devices in the school (where written permission has been granted)

Policy Statement

Education – Pupils

Whilst regulation and technical solutions are very important, their use must be balanced by educating pupils to take a responsible approach. The education of pupils in online safety/digital literacy is therefore an essential part of the school's online safety provision. Children and young people need the help and support of the school to recognise and avoid online safety risks and build their resilience.

In planning their online safety curriculum the schools may wish to refer to:
- DfE Teaching Online Safety in Schools
- National Online Safety Hub

Online safety should be a focus in all areas of the curriculum and staff should reinforce online safety messages across the curriculum. The online safety curriculum should be broad, relevant and provide progression, with opportunities for creative activities and will be provided in the following ways:

- A planned online safety curriculum should be provided as part of Computing/PHSE/other lessons and should be regularly revisited
- Key online safety messages should be reinforced as part of a planned programme of assemblies and activities
- Pupils should be taught in all lessons to be critically aware of the materials/content they access on-line and be guided to validate the accuracy of information.
- Pupils should be taught to acknowledge the source of information used and to respect copyright when using material accessed on the internet
- Pupils should be supported in building resilience to radicalisation by providing a safe environment for debating controversial issues and helping them to understand how they can influence and participate in decision-making.
- Pupils should be helped to understand the need for the pupil acceptable use agreement and encouraged to adopt safe and responsible use both within and outside school.
- Staff should act as good role models in their use of digital technologies, the internet and mobile devices
- In lessons where internet use is pre-planned, it is best practice that pupils should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches.
- Where pupils are allowed to freely search the internet, staff should be vigilant in monitoring the content of the websites the young people visit.

- It is accepted that from time to time, for good educational reasons, students may need to research topics (e.g. racism, drugs, discrimination) that would normally result in internet searches being blocked. In such a situation, staff can request that the Technical Staff (or other relevant designated person) can temporarily remove those sites from the filtered list for the period of study. Any request to do so, should be auditable, with clear reasons for the need.

Education – Parents/carers

They play an essential role in the education of their children and in the monitoring/regulation of the children's online behaviours. Parents may underestimate how often children and young people come across potentially harmful and inappropriate material on the internet and may be unsure about how to respond.

The school will therefore seek to provide information and awareness to parents and carers through:

- Curriculum activities
- Letters, newsletters,
- Membership to National Online Safety hub: http://nationalonlinesafety.com/enrol/gusford-community-primary-school
- Parents/carers evenings/sessions
- High profile events/campaigns e.g. Safer Internet Day
- Reference to the relevant web sites/publications swgfl.org.ukwww.saferinternet.org.uk/, http://www.childnet.com/parents-and-carers (see appendix for further links/resources)

Education & Training – Staff/Volunteers

It is essential that all staff receive online safety training and understand their responsibilities, as outlined in this policy. Training will be offered as follows:

- A planned programme of formal online safety training will be made available to staff. This will be regularly updated and reinforced. An audit of the online safety training needs of all staff will be carried out regularly.
- All new staff should receive online safety training as part of their induction programme, ensuring that they fully understand the school online safety policy and acceptable use agreements.
- The Online Safety Lead (or other nominated person) will receive regular updates through attendance at external training through National Online Safety hub and by reviewing guidance documents released by relevant organisations.
- This online safety policy and its updates will be presented to and discussed by staff in staff/team meetings/training sessions.
- The Online Safety Lead (or other nominated person) will provide advice/guidance/training to individuals as required.

Governors

Governors should take part in online safety training/awareness sessions, with particular importance for those who are members of any group involved in technology/online safety/health and safety /safeguarding. This may be offered in a number of ways:

- Attendance at training provided by the Local Authority/MAT/National Governors Association/or other relevant organisation (e.g. National Online Safety Hub).
- Participation in school training sessions for staff or parents

Technical – infrastructure/equipment, filtering and monitoring

The school will be responsible for ensuring that the school network is as safe and secure as is reasonably possible and that policies and procedures approved within this policy are implemented. It

will also need to ensure that the relevant people named in the above sections will be effective in carrying out their online safety responsibilities:

- School technical systems will be managed in ways that ensure that the school meets recommended technical requirements
- There will be regular reviews and audits of the safety and security of school technical systems
- Servers, wireless systems and cabling must be securely located and physical access restricted
- All users will have clearly defined access rights to school technical systems and devices.
- All users will be provided with a username and secure password for Google Classrooms who will keep an up to date record of users and their usernames. Users are responsible for the security of their username and password.
- The "administrator" passwords for the school systems, used by the ICT lead must also be available to the Headteacher or other nominated senior leader and kept in a secure place
- ICT manager is responsible for ensuring that software licence logs are accurate and up to date and that regular checks are made to reconcile the number of licences purchased against the number of software installations.
- Internet access is filtered for all users. Illegal content (child sexual abuse images) is filtered by the broadband or filtering provider by actively employing the Internet Watch Foundation CAIC list. Content lists are regularly updated and internet use is logged and regularly monitored. There is a clear process in place to deal with requests for filtering changes.
- Internet filtering/monitoring should ensure that children are safe from terrorist and extremist material when accessing the internet.
- School technical staff regularly monitor and record the activity of users on the school technical systems and users are made aware of this in the acceptable use agreement.
- An appropriate system is in place for users to report any actual/potential technical incident/security breach to the relevant person, as agreed.
- Appropriate security measures are in place to protect the servers, firewalls, routers, wireless systems, work stations, mobile devices, etc. from accidental or malicious attempts which might threaten the security of the school systems and data. These are tested regularly. The school infrastructure and individual devices are protected by up to date virus software.
- An agreed system is in place for the provision of temporary access of "guests" (e.g. trainee teachers, supply teachers, visitors) onto the school systems.
- An agreed policy is in place (remote learning) regarding the extent of personal use that users (staff/pupils/community users) and their family members are allowed on school devices that may be used out of school.
- Personal data cannot be sent over the internet or taken off the school site unless safely encrypted or otherwise secured.

Mobile Technologies (including BYOD/BYOT)

Mobile technology devices may be school owned/provided or personally owned and might include: smartphone, tablet, notebook/laptop or other technology that usually has the capability of utilising the school's wireless network. The device then has access to the wider internet which may include the school's learning platform and other cloud based services such as email and data storage.

All users should understand that the primary purpose of the use mobile/personal devices in a school context is educational. The mobile technologies policy should be consistent with and inter-related to other relevant school polices including but not limited to the safeguarding policy, behaviour policy, anti-bullying policy, acceptable use policy, and policies around theft or malicious damage. Teaching about the safe and appropriate use of mobile technologies should be an integral part of the school's online safety education programme.

- The school acceptable use agreements for staff, pupils and parents/carers will give consideration to the use of mobile technologies

Use of digital and video images

The development of digital imaging technologies has created significant benefits to learning, allowing staff and pupils instant use of images that they have recorded themselves or downloaded from the internet. However, staff, parents/carers and pupils need to be aware of the risks associated with publishing digital images on the internet. Such images may provide avenues for online-bullying to take place. Digital images may remain available on the internet forever and may cause harm or embarrassment to individuals in the short or longer term. It is common for employers to carry out internet searches for information about potential and existing employees. The school will inform and educate users about these risks and will implement policies to reduce the likelihood of the potential for harm:

- When using digital images, staff should inform and educate pupils about the risks associated with the taking, use, sharing, publication and distribution of images. In particular they should recognise the risks attached to publishing their own images on the internet e.g. on social networking sites.
- Written permission from parents or carers will be obtained before photographs of pupils are published on the school website/social media/local press
- In accordance with guidance from the Information Commissioner's Office, parents/carers are welcome to take videos and digital images of their children at school events for their own personal use (as such use in not covered by the Data Protection Act). To respect everyone's privacy and in some cases protection, these images should not be published/made publicly available on social networking sites, nor should parents/carers comment on any activities involving other pupils in the digital/video images.
- Staff and volunteers are allowed to take digital/video images to support educational aims, but must follow school policies concerning the sharing, distribution and publication of those images. Those images should only be taken on school equipment; the personal equipment of staff should not be used for such purposes.
- Care should be taken when taking digital/video images that pupils are appropriately dressed and are not participating in activities that might bring the individuals or the school into disrepute.
- Pupils must not take, use, share, publish or distribute images of others without their permission
- Photographs published on the website, or elsewhere that include pupils will be selected carefully and will comply with good practice guidance on the use of such images.
- Pupil's work can only be published with the permission of the pupil and parents or carers.

When using communication technologies, the school considers the following as good practice:

- The official school email service may be regarded as safe and secure. Staff and pupils should therefore use only the school email service to communicate with others when in school, or on school systems (e.g. by remote access).
- Users must immediately report, to the nominated person – in accordance with the school policy, the receipt of any communication that makes them feel uncomfortable, is offensive, discriminatory, threatening or bullying in nature and must not respond to any such communication.
- Any digital communication between staff and pupils or parents/carers (email, social media, chat, blogs, VLE etc) must be professional in tone and content. These communications may only take place on official (monitored) school systems.

- Pupils should be taught about online safety issues, such as the risks attached to the sharing of personal details. They should also be taught strategies to deal with inappropriate communications and be reminded of the need to communicate appropriately when using digital technologies.
- Personal information should not be posted on the school website and only official email addresses should be used to identify members of staff.

Social Media - Protecting Professional Identity

All schools, academies, MATs and local authorities have a duty of care to provide a safe learning environment for pupils and staff. Schools/academies, MATs and local authorities could be held responsible, indirectly for acts of their employees in the course of their employment. Staff members who harass, engage in online bullying, discriminate on the grounds of sex, race or disability or who defame a third party may render the school or local authority/MAT liable to the injured party. Reasonable steps to prevent predictable harm must be in place.

The school provides the following measures to ensure reasonable steps are in place to minimise the risk of harm to pupils, staff and the school through:

- Ensuring that personal information is not published
- Training is provided including: acceptable use; social media risks; checking of settings; data protection; reporting issues by using National Online Safety Hub
- Clear reporting guidance through My Concern, including responsibilities, procedures and sanctions

School staff should ensure that:

- No reference should be made in social media to pupils, parents/carers or school staff
- They do not engage in online discussion on personal matters relating to members of the school community
- Personal opinions should not be attributed to the school
- Security settings on personal social media profiles are regularly checked to minimise risk of loss of personal information
- Employees should be aware of both professional and social boundaries and should not therefore accept or invite 'friend' requests from pupils or ex-pupils under the age of 18, or from parents on their personal social media accounts such as Facebook. All communication with parents via social media should be through the school/trust's social media accounts.

When official school social media accounts are established there should be:
- A process for approval by Headship Team
- Clear processes for the administration and monitoring of these accounts – involving at least two members of staff (DSLs)
- A code of behaviour for users of the accounts, including: Systems for reporting and dealing with abuse and misuse
- Understanding of how incidents may be dealt with under school disciplinary procedures

Personal Use:
- Personal communications are those made via a personal social media accounts. In all cases, where a personal account is used which associates itself with the school or impacts on the school, it must be made clear that the member of staff is not communicating on behalf of the school with an appropriate disclaimer. Such personal communications are within the scope of this policy
- Personal communications which do not refer to or impact upon the school are outside the scope of this policy

- Where excessive personal use of social media in school is suspected, and considered to be interfering with relevant duties, disciplinary action may be taken
- The school permits reasonable and appropriate access to private social media sites

Monitoring of Public Social Media:
- As part of active social media engagement, it is considered good practice to pro-actively monitor the Internet for public postings about the school
- The school should effectively respond to social media comments made by others according to a defined policy or process

The school's use of social media for professional purposes will be checked regularly by the ICT Lead and Online Safety Lead to ensure compliance with the school policies.

Dealing with unsuitable/inappropriate activities

Some internet activity e.g. accessing child abuse images or distributing racist material is illegal and would obviously be banned from school and all other technical systems. Other activities e.g. cyber-bullying would be banned and could lead to criminal prosecution. There are however a range of activities which may, generally, be legal but would be inappropriate in a school context, either because of the age of the users or the nature of those activities.

The school believes that the activities referred to in the following section would be inappropriate in a school context and that users, as defined below, should not engage in these activities in/or outside the school when using school equipment or systems. The school policy restricts usage as follows:

User Actions		Acceptable	Acceptable at certain times	Acceptable for nominated	Unacceptable	Unacceptable and illegal
Users shall not visit Internet sites, make, post, download, upload, data transfer, communicate or pass on, material, remarks,	Child sexual abuse images –The making, production or distribution of indecent images of children. Contrary to The Protection of Children Act 1978					X
	Grooming, incitement, arrangement or facilitation of sexual acts against children Contrary to the Sexual Offences Act 2003.					X
	Possession of an extreme pornographic image (grossly offensive, disgusting or otherwise of an obscene character) Contrary to the Criminal Justice and Immigration Act 2008					X
	Criminally racist material in UK – to stir up religious hatred (or hatred on the grounds of sexual orientation) - contrary to the Public Order Act 1986					X
	Pornography				X	
	Promotion of any kind of discrimination				X	

| Category	Description	C1	C2	C3	C4	C5
proposals or comments that contain or relate to:	threatening behaviour, including promotion of physical violence or mental harm				X	
	Promotion of extremism or terrorism				X	
	Any other information which may be offensive to colleagues or breaches the integrity of the ethos of the school or brings the school into disrepute				X	
Activities that might be classed as cyber-crime under the Computer Misuse Act: • Gaining unauthorised access to school networks, data and files, through the use of computers/devices • Creating or propagating computer viruses or other harmful files • Revealing or publicising confidential or proprietary information (e.g. financial / personal information, databases, computer / network access codes and passwords) • Disable/Impair/Disrupt network functionality through the use of computers/devices • Using penetration testing equipment (without relevant permission)						X
Using systems, applications, websites or other mechanisms that bypass the filtering or other safeguards employed by the school/academy					X	
Revealing or publicising confidential or proprietary information (e.g. financial/personal information, databases, computer/network access codes and passwords)					X	
Unfair usage (downloading/uploading large files that hinders others in their use of the internet)					X	
Using school systems to run a private business					X	
Infringing copyright					X	
On-line gaming (educational)				X		
On-line gaming (non-educational)				X		
On-line gambling					X	
On-line shopping/commerce					X	
File sharing		X				
Use of social media				X		
Use of messaging apps				X		
Use of video broadcasting e.g. Youtube				X		

Responding to incidents of misuse

This guidance is intended for use when staff need to manage incidents that involve the use of online services. It encourages a safe and secure approach to the management of the incident. Incidents might involve illegal or inappropriate activities (see "User Actions" above).

Illegal Incidents

If there is any suspicion that the web site(s) concerned may contain child abuse images, or if there is any other suspected illegal activity, refer to the right hand side of the Flowchart (below and appendix) for responding to online safety incidents and report immediately to the police.

Online Safety Incident

Unsuitable materials

Illegal materials or activities found or suspected

Report to the person responsible for Online Safety

Report to Police using any number and report under local safeguarding arrangements.

DO NOT DELAY, if you have any concerns, report them immediately.

If staff/volunteer or child/young person, review the incident and decide upon the appropriate course of action, applying sanctions where necessary

Secure and preserve evidence.

Remember do not investigate yourself. Do not view or take possession of any images/videos. Do

Call professional strategy meeting

Debrief on online safety incident

Record details in incident log

Review polices and share experiences and practice as required.

Provide collated incident report logs to relevant authority as appropriate

Await Police response

Implement changes

If no illegal activity or material is confirmed, then revert to internal procedures.

If illegal activity or materials are confirmed, allow Police or relevant authority to complete their investigation and seek advice from the relevant professional body

Monitor situation

Named Person is responsible for the child's wellbeing and as such should be informed of anything that places the child at risk. BUT safeguarding procedures must be followed where appropriate.

In the case of a member of staff or volunteer, it is likely that a suspension will take place at the point of referral to police, whilst police and internal procedures are being undertaken.

Other Incidents

It is hoped that all members of the school community will be responsible users of digital technologies, who understand and follow school policy. However, there may be times when infringements of the policy could take place, through careless or irresponsible or, very rarely, through deliberate misuse.

In the event of suspicion, all steps in this procedure should be followed:

- Have more than one senior member of staff involved in this process. This is vital to protect individuals if accusations are subsequently reported.
- Conduct the procedure using a designated computer that will not be used by young people and if necessary can be taken off site by the police should the need arise. Use the same computer for the duration of the procedure.
- It is important to ensure that the relevant staff should have appropriate internet access to conduct the procedure, but also that the sites and content visited are closely monitored and recorded (to provide further protection).
- Record the URL of any site containing the alleged misuse and describe the nature of the content causing concern. It may also be necessary to record and store screenshots of the content on the machine being used for investigation. These may be printed, signed and attached to the form (except in the case of images of child sexual abuse – see below)
- Once this has been completed and fully investigated the group will need to judge whether this concern has substance or not. If it does, then appropriate action will be required and could include the following:
    - o Internal response or discipline procedures
    - o Involvement by Local Authority/Academy Group or national/local organisation (as relevant).
    - o Police involvement
- **If content being reviewed includes images of child abuse, then the monitoring should be halted and referred to the Police immediately. Other instances to report to the police would include:**
    - o incidents of 'grooming' behaviour
    - o the sending of obscene materials to a child
    - o adult material which potentially breaches the Obscene Publications Act
    - o criminally racist material
    - o promotion of terrorism or extremism
    - o offences under the Computer Misuse Act (see User Actions chart above)
    - o other criminal conduct, activity or materials
- **Isolate the computer in question as best you can. Any change to its state may hinder a later police investigation.**

It is important that all of the above steps are taken as they will provide an evidence trail for the school and possibly the police and demonstrate that visits to these sites were carried out for safeguarding purposes. The completed form should be retained by the group for evidence and reference purposes.

School actions & sanctions

It is more likely that the school will need to deal with incidents that involve inappropriate rather than illegal misuse. It is important that any incidents are dealt with as soon as possible in a proportionate manner, and that members of the school community are aware that incidents have been dealt with. It is intended that incidents of misuse will be dealt with through normal behaviour/disciplinary procedures as follows:

Actions/Sanctions

Pupils Incidents	Refer to class teacher	Refer to Online safety Lead	Refer to Headteacher	Refer to Police	Refer to technical support staff for action re filtering/security etc.	Inform parents/carers	Removal of network/internet access	Warning	Further sanction e.g. detention/exclusion
Deliberately accessing or trying to access material that could be considered illegal (see list in earlier section on unsuitable/inappropriate activities).		X	X	X					
Unauthorised use of non-educational sites during lessons	X	X			X	X			
Unauthorised/inappropriate use of mobile phone/digital camera/other mobile device	X	X	X			X	X		
Unauthorised/inappropriate use of social media/ messaging apps/personal email	X	X				X	X		
Unauthorised downloading or uploading of files	X	X			X	X			
Allowing others to access school network by sharing username and passwords	X	X			X	X			
Attempting to access or accessing the school network, using another pupil's account	X	X	X		X	X			
Attempting to access or accessing the school network, using the account of a member of staff	X	X	X			X	X		
Corrupting or destroying the data of other users	X	X	X		X	X	X		
Sending an email, text or message that is regarded as offensive, harassment or of a bullying nature	X	X	X			X	X	X	X
Continued infringements of the above, following previous warnings or sanctions	X	X	X			X	X		X
Actions which could bring the school into disrepute or breach the integrity of the ethos of the school		X	X			X	X	X	X

Incident								
Using proxy sites or other means to subvert the school's filtering system	X	X			X	X		X	
Accidentally accessing offensive or pornographic material and failing to report the incident	X	X	X		X	X	X	X	
Deliberately accessing or trying to access offensive or pornographic material	X	X	X	X	X	X	X	X	X
Receipt or transmission of material that infringes the copyright of another person or infringes the Data Protection Act	X	X	X		X	X		X	

Actions/Sanctions

Staff Incidents	Refer to line manager	Refer to Headteacher	Refer to Local Authority/HR	Refer to Police	Refer to Technical Support Staff for action re filtering	Warning	Suspension	Disciplinary action
Deliberately accessing or trying to access material that could be considered illegal (see list in earlier section on unsuitable/inappropriate activities).		X	X	X	X	X	X	X
Inappropriate personal use of the internet/social media/personal email	X	X				X	X	X
Unauthorised downloading or uploading of files	X	X			X	X	X	X
Allowing others to access school network by sharing username and passwords or attempting to access or accessing the school network, using another person's account	X	X			X	X		
Careless use of personal data e.g. holding or transferring data in an insecure manner	X				X	X		
Deliberate actions to breach data protection or network security rules	X	X			X	X	X	X
Corrupting or destroying the data of other users or causing deliberate damage to hardware or software	X	X				X	X	X
Sending an email, text or message that is regarded as offensive, harassment or of a bullying nature	X	X	X	X		X	X	X

Using personal email/social networking/instant messaging/text messaging to carrying out digital communications with pupils	X	X	X	X		X	X	X
Actions which could compromise the staff member's professional standing	X	X				X		
Actions which could bring the school into disrepute or breach the integrity of the ethos of the school	X	X				X	X	X
Using proxy sites or other means to subvert the school's filtering system	X	X			X	X		
Accidentally accessing offensive or pornographic material and failing to report the incident	X	X			X	X	X	X
Deliberately accessing or trying to access offensive or pornographic material	X	X	X	X	X		X	X
Breaching copyright or licensing regulations	X	X			X	X		
Continued infringements of the above, following previous warnings or sanctions	X	X				X	X

Pupil Acceptable Use Agreement – KS2

School policy
Digital technologies have become integral to the lives of children and young people, both within schools and outside school. These technologies are powerful tools, which open up new opportunities for everyone. These technologies can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. Young people should have an entitlement to safe access to these digital technologies.

This acceptable use agreement is intended to ensure:
- that young people will be responsible users and stay safe while using the internet and other digital technologies for educational, personal and recreational use.
- that school systems and users are protected from accidental or deliberate misuse that could put the security of the systems and will have good access to digital technologies to enhance their learning and will, in return, expect the pupils to agree to be responsible users.

Acceptable Use Agreement
I understand that I must use school systems in a responsible way, to ensure that there is no risk to my safety or to the safety and security of the systems and other users.

For my own personal safety:
- I understand that the school will monitor my use of the systems, devices and digital communications.
- I will keep my username and password safe and secure – I will not share it, nor will I try to use any other person's username and password. I understand that I should not write down or store a password where it is possible that someone may steal it.
- I will be aware of "stranger danger", when I am communicating on-line.
- I will not disclose or share personal information about myself or others when on-line (this could include names, addresses, email addresses, telephone numbers, age, gender, educational details, financial details etc.)
- If I arrange to meet people off-line that I have communicated with on-line, I will do so in a public place and take an adult with me.
- I will immediately report any unpleasant or inappropriate material or messages or anything that makes me feel uncomfortable when I see it on-line.

I understand that everyone has equal rights to use technology as a resource and:
- I understand that the school systems and devices are primarily intended for educational use and that I will not use them for personal or recreational use unless I have permission.
- I will not use the school systems or devices for on-line gaming, internet shopping, file sharing, or video broadcasting (e.g. YouTube), unless I have permission of a member of staff to do so.

I will act as I expect others to act toward me:
- I will respect others' work and property and will not access, copy, remove or otherwise alter any other user's files, without the owner's knowledge and permission.
- I will be polite and responsible when I communicate with others, I will not use strong, aggressive or inappropriate language and I appreciate that others may have different opinions.
- I will not take or distribute images of anyone without their permission.

I recognise that the school has a responsibility to maintain the security and integrity of the technology it offers me and to ensure the smooth running of the school:
- I will only have my own personal devices (mobile phones) in school if I have permission.

- I understand the risks and will not try to upload, download or access any materials which are illegal or inappropriate or may cause harm or distress to others, nor will I try to use any programmes or software that might allow me to bypass the filtering/security systems in place to prevent access to such materials.
- I will immediately report any damage or faults involving equipment or software, however this may have happened.
- I will not open any hyperlinks in emails or any attachments to emails, unless I know and trust the person/organisation who sent the email, or if I have any concerns about the validity of the email (due to the risk of the attachment containing viruses or other harmful programmes)
- I will not install or attempt to install or store programmes of any type on any school device, nor will I try to alter computer settings.

When using the internet for research or recreation, I recognise that:

- I should ensure that I have permission to use the original work of others in my own work
- Where work is protected by copyright, I will not try to download copies (including music and videos)
- When I am using the internet to find information, I should take care to check that the information that I access is accurate, as I understand that the work of others may not be truthful and may be a deliberate attempt to mislead me.

I understand that I am responsible for my actions, both in and out of school:

- I understand that the school also has the right to take action against me if I am involved in incidents of inappropriate behaviour, that are covered in this agreement, when I am out of school and where they involve my membership of the school community (examples would be online-bullying, use of images or personal information).
- Any offensive or inappropriate comments will be resolved by the use of the school's behaviour policy

Student/Pupil Acceptable Use Policy Agreement – for Foundation/KS1

This is how we stay safe when we use computers:
- I will ask a teacher or suitable adult if I want to use the computers/tablets
- I will only use activities that a teacher or suitable adult has told or allowed me to use
- I will take care of computers/tablets and other equipment
- I will ask for help from a teacher or suitable adult if I am not sure what to do or if I think I have done something wrong
- I will tell a teacher or suitable adult if I see something that upsets me on the screen
- I know that if I break the rules I might not be allowed to use a computer/tablet

Parent/Carer Acceptable Use Agreement

Digital technologies have become integral to the lives of children and young people, both within schools and outside school. These technologies provide powerful tools, which open up new opportunities for everyone. They can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. Young people should have an entitlement to safe internet access at all times.

This acceptable use policy is intended to ensure:
- that young people will be responsible users and stay safe while using the internet and other communications technologies for educational, personal and recreational use.
- that school systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.
- that parents and carers are aware of the importance of online safety and are involved in the education and guidance of young people with regard to their on-line behaviour.

Parents/Carers

- If parents/carers have access to a school learning platform where posting or commenting is enabled, parents/carers will be informed about acceptable use.
- The school has an active parent/carer education programme which supports the safe and positive use of social media. This includes information on the website.
- Parents/Carers are encouraged to comment or post appropriately about the school. In the event of any offensive or inappropriate comments being made, the school will ask the parent/carer to remove the post and invite them to discuss the issues in person. If necessary, refer parents to the school's complaints procedures.

As the parent/carer of the above pupils, I give permission for my son/daughter to have access to the internet and to ICT systems at school.

Either: (KS2)

I know that my son/daughter will receive, online safety education to help them understand the importance of safe use of technology and the internet – both in and out of school.

Or: (EYFS/KS1)

I understand that the school has discussed the acceptable use agreement with my son/daughter and that they will receive, online safety education to help them understand the importance of safe use of technology and the internet – both in and out of school.

I understand that the school will take every reasonable precaution, including monitoring and filtering systems, to ensure that young people will be safe when they use the internet and systems. I also understand that the school cannot ultimately be held responsible for the nature and content of materials accessed on the internet and using mobile technologies.

I understand that my son's/daughter's activity on the systems will be monitored and that the school will contact me if they have concerns about any possible breaches of the acceptable use agreement.

I will encourage my child to adopt safe use of the internet and digital technologies at home and will inform the school if I have concerns over my child's online safety.

Staff (and Volunteer) Acceptable Use Policy Agreement

Also refer to the Active Learning Trust Policy:

Staff Behaviour
- The school requires that all users using social media adhere to the standard of behaviour as set out in this policy and other relevant policies.
- Digital communications by staff must be professional and respectful at all times and in accordance with this policy. Staff will not use social media to infringe on the rights and privacy of others or make ill-considered comments or judgments about staff. School social media accounts must not be used for personal gain. Staff must ensure that confidentiality is maintained on social media even after they leave the employment of the school.
- Users must declare who they are in social media posts or accounts. Anonymous posts are discouraged in relation to school activity.
- If a journalist makes contact about posts made using social media staff must follow the school media policy before responding.
- Unacceptable conduct, (e.g. defamatory, discriminatory, offensive, harassing content or a breach of data protection, confidentiality, copyright) will be considered extremely seriously by the school and will be reported as soon as possible to a relevant senior member of staff, and escalated where appropriate.
- The use of social media by staff while at work may be monitored, in line with school policies. The school permits reasonable and appropriate access to private social media sites. However, where excessive use is suspected, and considered to be interfering with relevant duties, disciplinary action may be taken
- The school will take appropriate action in the event of breaches of the social media policy. Where conduct is found to be unacceptable, the school will deal with the matter internally. Where conduct is considered illegal, the school will report the matter to the police and other relevant external agencies, and may take action according to the disciplinary policy.

Legal considerations
- Users of social media should consider the copyright of the content they are sharing and, where necessary, should seek permission from the copyright holder before sharing.
- Users must ensure that their use of social media does not infringe upon relevant data protection laws, or breach confidentiality.

Handling abuse
- When acting on behalf of the school, handle offensive comments swiftly and with sensitivity.
- If a conversation turns and becomes offensive or unacceptable, school users should block, report or delete other users or their comments/posts and should inform the audience exactly why the action was taken
- If you feel that you or someone else is subject to abuse by colleagues through use of a social networking site, then this action must be reported using the agreed school protocols.

Tone
The tone of content published on social media should be appropriate to the audience, whilst retaining appropriate levels of professional standards. Key words to consider when composing messages are:

- Engaging
- Conversational
- Informative
- Friendly (on certain platforms, e.g. Facebook)

Use of images
School use of images can be assumed to be acceptable, providing the following guidelines are strictly adhered to.

- **Permission to use any photos or video recordings should be sought in line with the school's digital and video images policy. If anyone, for any reason, asks not to be filmed or photographed then their wishes should be respected.**
- **Under no circumstances should staff share or upload pupil pictures online other than via school owned social media accounts**
- Staff should exercise their professional judgement about whether an image is appropriate to share on school social media accounts. Pupils should be appropriately dressed, not be subject to ridicule and must not be on any school list of children whose images must not be published.
- If a member of staff inadvertently takes a compromising picture which could be misconstrued or misused, they must delete it immediately.

Personal use
- **Staff**
    - o Personal communications are those made via a personal social media accounts. In all cases, where a personal account is used which associates itself with the school or impacts on the school, it must be made clear that the member of staff is not communicating on behalf of the school with an appropriate disclaimer. Such personal communications are within the scope of this policy.
    - o Personal communications which do not refer to or impact upon the school are outside the scope of this policy.
    - o Where excessive personal use of social media in school is suspected, and considered to be interfering with relevant duties, disciplinary action may be taken
    - o The school permits reasonable and appropriate access to private social media sites.

Responding to incidents of misuse – flow chart

Online Safety Incident

Left branch: Unsuitable materials

Unsuitable materials

↓

Report to the person responsible for Online Safety

↓

If staff/volunteer or child/young person, review the incident and decide upon the appropriate course of action, applying sanctions where necessary

↓

Debrief on online safety incident → Record details in incident log

↓ (from Debrief)

Review polices and share experiences and practice as required.

↓

Implement changes

↓

Monitor situation

(from Record details in incident log)

Provide collated incident report logs to relevant authority as appropriate

Named Person is responsible for the child's wellbeing and as such should be informed of anything that places the child at risk. BUT safeguarding procedures must be followed where appropriate.

Right branch: Illegal materials

Illegal materials or activities found or suspected

↓

Report to Police using any number and report under local safeguarding arrangements.

DO NOT DELAY, if you have any concerns, report them immediately.

↓

Secure and preserve evidence.

Remember do not investigate yourself. Do not view or take possession of any images/videos. Do

Call professional strategy meeting

↓

Await Police response

↓

If no illegal activity or material is confirmed, then revert to internal procedures.

If illegal activity or materials are confirmed, allow Police or relevant authority to complete their investigation and seek advice from the relevant professional body

↓

In the case of a member of staff or volunteer, it is likely that a suspension will take place at the point of referral to police, whilst police and internal procedures are being undertaken.

Further Guidance

National Online Safety Hub – www.nationalonlinesafety.com

Schools in England (and Wales) are required "to ensure children are safe from terrorist and extremist material when accessing the internet in school, including by establishing appropriate levels of filtering" (Revised Prevent Duty Guidance: for England and Wales, 2015).

The Department for Education 'Keeping Children Safe in Education' requires schools to: "ensure appropriate filters and appropriate monitoring systems are in place. Children should not be able to access harmful or inappropriate material from the school or colleges IT system" however, schools will need to "be careful that "over blocking" does not lead to unreasonable restrictions as to what children can be taught with regards to online teaching and safeguarding."

In response UKSIC produced guidance on – information on "Appropriate Filtering"
