

Maths task:

Compare these measurements and order them from the shortest to the longest.

207cm 2m and 70cm 3m 217cm

shortest \longrightarrow longest

--	--	--	--

The teapot holds five times more tea than the cup.
 If the cup holds 300ml of tea, how much tea does the teapot hold?

Write the calculation you used to solve this problem in the box below.

Grace was given 95p pocket money by her mum and 60p pocket money by her dad. How much pocket money does she have altogether?

pounds and	pence
------------	-------

Complete the table to show how many days there are in:

September	
June	
March	
a year	
a leap year	

English task:

1. Which prefix is missing? **Circle one** for each word.

super	auto	hero
-------	------	------

super	auto	graph
-------	------	-------

super	auto	power
-------	------	-------

2. The sentence below contains some errors. **Circle the words which are incorrect.**

The rain poured down, so Dad took a umbrella from his bag and held it over my head. An drop of rain rolled down the umbrella and dripped on my foot. 'What an miserable day.' sighed Dad.

3. **Rewrite** the sentence below so that it uses the **present perfect** tense.

You saw that movie lots of times.

4. **Underline** the **direct speech** in this sentence.

"Ahmed," said James, "can I borrow your ruler, please?"

Reading Task:

The Secret Lives of Llamas

Llamas are members of the camel family which are native to the Andes Mountains in South America. Lots of people know llamas for their bad habit of spitting, but there are lots more to llamas than meets the eye...

Species: Lama glama
Height: Up to 180cm
Weight: Up to 200kg
Lifespan: 15 - 25 years

Llamas can be used as therapy animals!

It is possible to train a llama to be a therapy animal. That means that they can go into places like hospitals, schools and nursing homes to give people comfort with their calm and soothing nature.

Llamas have three stomachs!

Llamas aren't fussy eaters. Like goats, they have been known to chew their food once, regurgitate it and then chew it again! The three stomach chambers that llamas have are great for breaking down food like grass and hay. Llamas can also survive on very little water.

Llamas can talk!

Llamas make different sounds depending on their moods or what they are doing. For example, llama mothers will hum to their babies or when they are feeling happy. They are also known to scream as an alarm call if they feel in danger and sometimes also make grunting, snorting and clicking sounds.

Llamas can be used as guards!

In western parts of the USA where coyotes and wolves are found, some farmers use llamas as guards for their sheep. If a llama spots a predator trying to attack the herd, they will make alarm calls to alert the farmer and in some cases will even try to scare the predator away.

Glossary:

Native - an animal that originates from a specific area is said to be native to that area.

Regurgitate - to bring swallowed food back up.

Predator - an animal that preys on other animals.

1. Where are llamas native to?

2. What is the lifespan of llamas?

- 10 - 20 years
 15 - 25 years
 15 - 20 years

3. Why are llamas good therapy animals?

4. What do a llama's three stomachs do?

5. When might a llama hum?

6. How can llamas help farmers?

PE/Outdoor task:

You are going to practise your striking, aiming and movement skills - just like in rounders and tennis - using things you can find at home!

Warm Up

- 30 seconds jogging on the spot
- 10 star jumps
- 10 high knees
- 10 arm circles (forwards and backwards)

Activity 1: Target Throw (Fielding Skills)

- Find a ball (or rolled-up socks!)
- Create a target (bucket, box, bin, or chalk circle)
- Stand a few steps away and throw underarm
- Score 1 point each time you hit the target
- Try 10 throws
- Move further away to make it harder

Activity 2: Quick Reaction Run (Game Skills)

- Mark out 2 -4 spots (use shoes, cones, or objects)
- Start in the middle
- Have someone call a number or colour - or pick randomly yourself
- Run quickly to the correct spot and back
- Time yourself for 30 seconds
