

Our Vision:

Supporting, improving and maintaining good attendance at Hardwick Green Academy

Whole School Culture	Policies, Systems and Processes	Professional Development	Personalised Interventions	Community Capital
				
<p>We want to ensure that school is a safe, friendly and engaging place for children to learn so that everybody wants to be in school every day</p>	<p>We have policies and processes that are fair and supportive so that we can work together to ensure all children have good attendance.</p>	<p>Staff are trained to recognise the importance of good attendance and to be able to identify when support needs to be offered.</p>	<p>We offer support to families and aim to develop strong relationships between school and home.</p>	<p>We work with community groups, families and the local authority to overcome any barriers to good attendance.</p>

*As a school community, we value the importance of supporting each other to improve school attendance – it is everyone’s responsibility!
Built upon the foundations of good relationships between home and school, we listen, we support, we inform, we reward and we challenge.*
