

Dahl Class

News

We have had a busy term in Dahl class and have enjoyed lots of fun activities. We have been visited by the laughter specialist, met lots of exciting animals and had a great enterprise day designing our very own energy drink. We have also enjoyed the warmer weather and have taken part in outside learning and activities including art, science and water play.

Literacy and Communication

This term we have been working on work based on our individual 'P level' targets. We have covered all three strands of 'Reading, Writing and Speech and Language'.

Maths

This term we have been working on work based on our individual 'P level' targets. We have covered all three strands of 'Number, Geometry and Measure'.

Science

This term in Science we have been looking at forces. We have learnt about pushing and pulling, gravity, and floating and sinking. We have conducted experiments in class, finding which objects can be pushed or pulled, which objects fall fast or fall slowly, and which objects float on water and which objects sink. We recorded our findings in our work books. It was lots of fun, especially when we got to push and pull the adults!

Topic

In humanities we have learnt about the water cycle. We read a book called the little raindrop and followed where it travelled. We made our own water cycle and watched how the water travelled through the areas until it reached the sea (tough tray).

In art we created our own comics. We chose our hero, monster and person who needed saving. We created our own backgrounds and then put all of our work together to make a comic book strip. Did the hero defeat the monster and rescue the civillian? You will have to read it to find out!

End of Year Message

It has been a very busy year with lots of changes and it has been lovely to welcome new pupils to the class. We have had a great year in Dahl, and I look forward to spending another fabulous year in Dahl next year. I also want to say a massive thank you to all the parents for your support this year.

We say goodbye to some students next year who are moving to new classes as well as some staff who are moving on to different classes.

Next year we welcome some new staff and two new students to Dahl.

Looking forward to a fun filled year ahead.

Have a wonderful summer break.
