

Willow Class – Lower School

Notable news

It's been another busy term in Willow class - we have worked hard but also had lots of fun along the way! We loved our trip to Hertfordshire Zoo, where we saw lots of animals, and had a great picnic. Enjoyed the different play areas and explored the dinosaur trail. We also had a wonderful sports afternoon, playing "Hook a Duck" and doing Yoga.

Literacy and Communication

Our topic this term was "On the move" and we have learnt a lot about modes of transport! We chose to focus on the book 'We all go travelling by'. Each week we focused on a different form of transport, building sentences to describe the pictures from the book and creating corresponding artwork.

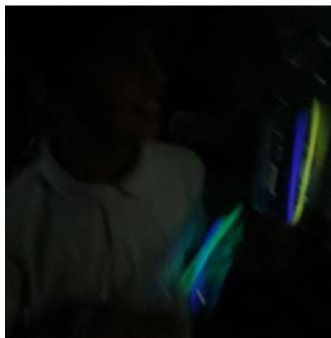

Maths

This term, Willow class have continued to work hard on developing their number skills., one of the areas we worked on was money through role play. After half term, we have been focusing on shape. Pupils have learnt to explore, name, identify, sort and match different 2D and 3D shapes.

Topic

In science this term, we have enjoyed learning about light. We explored different light toys, compared light and dark, and played skittles in the school dark room that used UV light (glow sticks)

Dancing with glow sticks!

Hiding in a dark space!

In the sunshine making shadows!

Upcoming Events

We have had an amazing year in Willow class! It has been a real pleasure working with all your children, the whole team have enjoyed watching them flourish and develop their love for learning!

Have a wonderful summer break, and we look forward to seeing you all again in September 😊

Caroline and the Willow Class Team
