

Thames Class

News

This term continued to be busy for Thames class. We have had the travelling librarian in and visiting animals which we all really enjoyed. We also had an exciting enterprise day where we had to design our own energy drink and label for the bottle.

Literacy and Communication

This term we have continued to work on our mark making skills and develop our reading skills. With the support from big macks for some of us we have worked on finishing a repetitive sentence in a story. We have also worked on labelling familiar objects.

Maths

For Maths this term, we have worked on developing our understanding of mathematical language. We have worked on identifying the big/small objects, colour sorting and matching number to numerical.

Science

Science has been good fun; we took our science lesson into the hall to experience a range of objects that moved by different forces. This term we focused on push and pull.

Topic

In RE we have been learning about Islam and the daily life of an Islamic child. We explored artefacts linked to Islam and dressed up.

In English we have been listening to *The First Hippo That Went To The Moon*, this has led to some exciting exploration of space and planets whilst in the interactive learning room.

End of Year Message

It has been a very busy year with lots of changes and it has been lovely to welcome new students to the class. We have had a great year in Thames, and I look forward to spending another great year in Thames next year. I also want to say a big thank you to all the parents for your support this year.

We say goodbye to some students next year who are moving to new classes as well as some staff who are moving on to different classes.

Next year we welcome some new staff who we look forward to working with.

Have a wonderful summer break.
