## HSA History

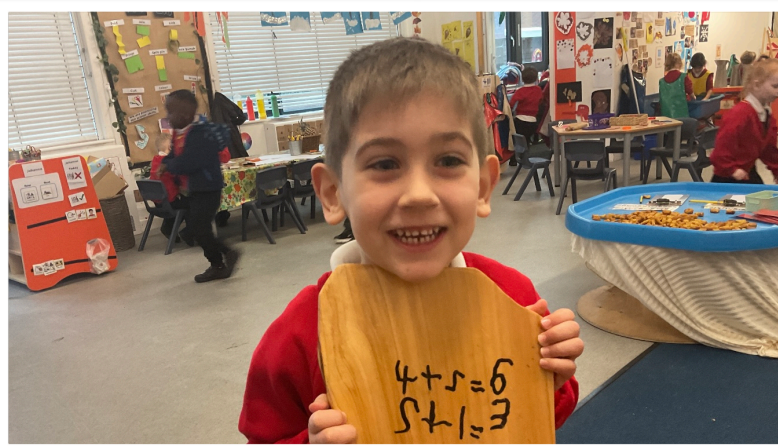

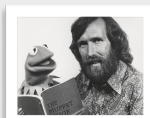

3rd November 1964

The school watched the State Opening of Parliament on a TV set loaned by a local television firm.

## Thought of the Week

**'Life is like a movie, write your own ending. Keep believing keep pretending. Jim Hanson'**

Alex Fleckney, Class Teacher

## A message from our Vice Principal

We have had a lovely start to February with another busy week in the academy.

Our Foundation Stage children have been on a local area walk to look at human features around us. They all enjoyed it.

Year 5 designed their phone cases this week. We are looking forward to seeing all the finished results, bringing their designs to life.

Year 3 have enjoyed learning facts about magnets this week and they have created experiments to find out how they can use them to make things move.

Enjoy your weekend and we will see you all on Monday.

## Year FS News

This week in Foundation Stage, the children have been learning about simple addition. They have been finding different ways to make a given number. They have learned how to use their fingers to help them count, how to use ones on simple addition sums, how to use a 10 frame and what to do if they get stuck. Many of the children had a good time! Just look at their faces!

In addition to our learning in maths, the children have been exploring the local area to look at human features around them. They have investigated maps and found key landmarks around our area. The children really enjoyed their time outside of the classroom walls and many really good questions about what is around them and what they could observe.

Foundation Stage have also been working on their gross motor skills! The children have been using the large brushes and soapy water to help wash the school windows. The children have been stretching their arms and legs to clean the highest point of the window. The children even used foam letters and numbers and used their phonics knowledge to write words.

Well done Foundation Stage! You have made the Foundation Stage team very proud!
