

Hawes Side Academy News

A message from our Principal, Mrs Boothroyd

On Wednesday, some of our Year 5 pupils travelled to Lancaster University with our Confucius Classroom team and academy leaders to tour the campus and learn a little more about university life.

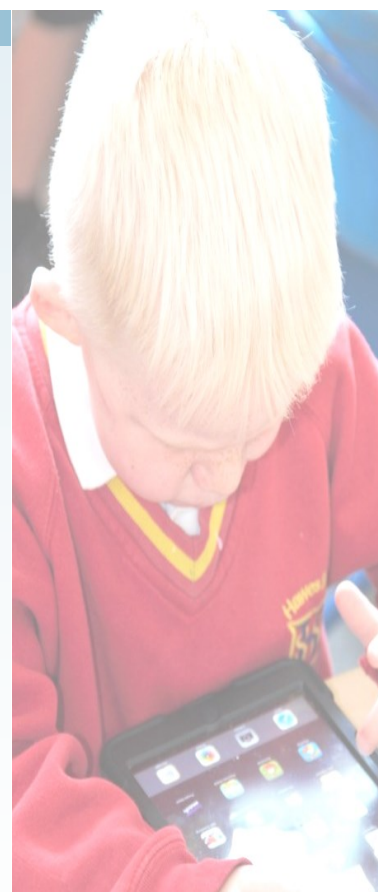

During the visit, the children spent time in the university's Confucius Classroom handling resources, learning about Chinese festivals and had the opportunity to complete fun craft activities.

We were proud of how responsible the children were and how well they represented the academy.

Thought of the week

'The capacity to learn is a gift; the ability to learn is a skill and the willingness to learn is a choice. Learn everything you can as you never know when you may need it. I wonder what you will be willing to learn this week?'

The children have settled in well to Year 2 and have been busy accessing the different areas of the curriculum.

It's been great to see so many children reading each day and returning their books to school regularly, especially being enthusiastic about their 'reading for pleasure' books.

In Science the children have been exploring what plants need to grow healthily. They have planted seeds and will be observing how they grow under different variables.

In Maths the children have been counting in '2s', '3s', '5s' and '10s'. It would be great if the children could continue practising this at home. They can access TT Rockstars by using the login in their reading records.

In Design Technology we have been learning about freestanding structures. We have looked at different examples and are thinking about how they stand up on their own and remain strong and stable. The children have enjoyed using construction sets to make their own structures.
