Newsletter No. 26

25th June 2021

Dear Parents and Carers

We are pleased to announce on today's newsletter your child's class teacher for September. We felt it was important to share this information as early as possible so that the staff can start working virtually with their new classes to ensure a smooth September start. The class teachers will also be looking to make contact with yourself in the weeks before we break up to introduce themselves and say hello. This would be a valuable time for you to share any important information you may have with them so that we are fully prepared for September.

I am also pleased to announce that we have a new teacher starting with us in September, Miss Narborough. She will be liaising closely with Mr Smith and we will be arranging virtual meetings so that she can meet with the children of 4A in order to start building relationships. You may notice that Mrs Haywood will also be returning after her maternity leave and it will be lovely to welcome her back into the academy as she also gets to know her new class.

Unfortunately, you won't be able to visit your child's new classroom for 'Meet the Teacher' this July as we would normally and so instead, the staff are putting together Sways to help with this and they will be shared with you prior to us finishing.

It wasn't the ending to the year we had hoped for but we will still continue to do all the usual end of year activities, we are just sad that we cannot invite you in to enjoy them with us. The Y6 team will be sharing plans with their families of how we will be celebrating the journey they have had with us and sports days are still planned to take place - we will make sure we take lots of photographs and videos so that you feel involved too and can see what we have been up to.

In the meantime have a wonderful weekend everyone and take care.

Mrs Boothroyd

HOW TO MEASURE YOUR CHILD

With the growing popularity of online ordering, this often results in the need to measure to ensure we get the right fit. At Brigade, we strongly recommend you measure your child before placing your order to avoid the cost of returns and re-ordering.

To measure you need a soft measuring tape (or a piece of string and a regular tape). Measure as shown in the diagram right

(keep in mind that when you're measuring, you should have the tape measure snug but not tight. You should be able to fit a finger under it). Double check all measurements if uncertain.

CHEST: Measure around the chest at the fullest part, placing the tape close up under the arms.

COLLAR: Measure around the base of the neck where the collar sits, inserting two fingers between the neck and tape to allow growth

WAIST: Measure around the natural waistline.

TROUSER LENGTH: Measure the inside leg from crotch to floor without shoes on.

HIPS: Measure around your hips, 20cm (8") below your natural waistline.

SKIRT LENGTH: Measure from the waist down to where you would want the hem

DRESS & PINAFORE LENGTH: Measure from nape of neck to length required.

TIPS

- Record your measurements in inches (not centimetres)
- Note down each measurement immediately
- Ensure your child is standing straight and not tucking in his/her tummy
- Take measurements in underwear or tight thin clothing (do not measure when child is wearing bulky or baggy clothing)

IMPORTANT WASH CARE INSTRUCTIONS

Always refer to your garment care label to ensure that your uniform looks as good as new for as long as possible. We produce tough, hardwearing uniform, however it is important that you follow the care labels correctly to ensure you get the best out of your purchase.

- Turn garments inside out to wash and dry
- Fasten any buttons before washing
- Do not overload machine
- Iron inside out on a cool setting to avoid heat damage, which can cause a shiny surface on fabrics (do not iron knitwear or cuffs and welts on sweatshirts)
- Bobbling/Pilling is caused by friction and excessive heat. It is also known within the British textile industry that fabric softeners are a major cause of bobbling/pilling of the fabric. Bobbling/pilling often disappears over time and is not a reflection on the quality of the garment.
