Newsletter No. 32

20th May 2022

Dear Parents and Carers

It has been a lovely week meeting all our new Foundation Stage children and families, we look forward to them starting with us in September.

Next week is also a busy week as sports days will be taking place and we will be celebrating the Queen's Platinum Jubilee. You are all invited to join us for our Jubilee Street Party on the playground after school to celebrate this special occasion. Please see below for further information on the celebrations and sports days.

Further to previous requests, we would like to remind you that the school gates open at 8:45am. Any children arriving at school prior to this without an adult, will join breakfast club and parents and carers will be charged. Also, our neighbours have politely asked that at drop off and pick up times, you are mindful that it is a residential area and that you are considerate when you are parking.

Next week is the final week of the half term and the children's last day in the academy is Thursday 26th May. In celebration of the Jubilee, children can attend school on this day in red, white and blue.

Have a lovely weekend

You will learn about what and how your child learns in Year 1.

Each session will last for two hours – a parent workshop for one hour, followed by a joint session where the parent works with their child on literacy activities with a pirate theme.

The course will run for 4 weeks starting Tuesday 14th June, 9:15am-11:15am. Please note that due to Health & Safety we are unable to accommodate younger siblings in the sessions. To book a place on this course please complete the form at bit.ly/FLPP22

IMPORTANT WASH CARE INSTRUCTIONS

Always refer to your garment care label to ensure that your uniform looks as good as new for as long as possible. We produce tough, hardwearing uniform, however it is important that you follow the care labels correctly to ensure you get the best out of your purchase.

- Turn garments inside out to wash and dry
- Fasten any buttons before washing
- Do not overload machine
- Iron inside out on a cool setting to avoid heat damage, which can cause a shiny surface on fabrics (do not iron knitwear or cuffs and welts on sweatshirts)
- Bobbling/Pilling is caused by friction and excessive heat. It is also known within the British textile industry that fabric softeners are a major cause of bobbling/pilling of the fabric. Bobbling/pilling often disappears over time and is not a reflection on the quality of the garment.
