- Complete your spelling wordsearch

Maths

This week in maths we will be continuing to look at addition and subtraction. There is a video for each day, sheets to accompany these are attached separately.

Day 1: Subtract a 2-digit multiple of 10 from a 3-digit number- crossing 100

Watch the following video: [Video](#), then complete the attached sheet.

Day 2: Add and subtract 100s

Watch the following video: [Video](#), then complete the attached sheet.

Day 3: Spot the pattern

Watch the following video: [Video](#), then complete the attached sheet.

Day 4: Add two 2-digit numbers

Watch the following video: [Video](#), then practise adding two-digit numbers, drawing base 10.

Day 5: Add two 2-digit numbers- crossing 10

Watch the following video: [Video](#), then complete the attached sheet.

Topic

This week and last week in DT we have been looking at super Stone Age tools! We looked at various different types such as spears and hammers. Some of them are quite basic and could need improving. But how? Watch this [video](#) to gather some information!

Your task is to design a new Stone Age tool that is efficient and effective for whatever its purpose is! First, you will need to gather information to identify what materials were actually used back then. This can be done by searching on the internet!

You must include:

- A drawing design which is labelled
- A list of materials that will be used to make it

Then write some super sentences answering the following questions...

- Is there more than one purpose for your tool?
- Why is this improvement going to benefit hunters and tribes?

Challenge – Create your new tool in real life using items from home, such as empty boxes!
