

# Home Learning Year 6

w/c 012/10/20

## English

This week in English we are looking at grammar that we use daily.

Write some sentences with pronouns instead of nouns.

eg. Sammy walked through jungle, she waited for the plane.

Write some sentences using modal verbs

e.g You must wipe the table regularly.

We are also looking at how to summarise the main ideas in a text, we are doing this through a comprehension.

## Maths

This week in maths we will be identifying and using the following multiple, factors, prime numbers and squared and cubed numbers.

Have a look at this website and then have a look through the sheets attached.

## Topic

Research about Alexander Fleming, the scientist that discovered the mould and identified that it belonged to the Penicillin group. (antibiotics)

Write a biography/fact file on the life of Alexander Fleming.
