

Home Learning Year 5

w/c 02/11/20

English

This week in English we are looking at chapter 5 of Kensuke's Kingdom. Please make sure you have read up to this point of the book. The PDF version of the novel is on Teams.

There are some activities on Teams related to the text for you to answer.

We hope you enjoy it at home as much as we are at school!

Maths

This week in maths we will be working on statistics. This is a new topic so we have enclosed some videos for you to watch on Teams to support your activities.

Topic

This week we are going to be introducing our new topic *Stargazer!*

We will be learning all about the planets in our solar system. For this you could create your own mnemonic to remember the order of the planets.

We will also be listening to some space themed music and discussing how the music is composed and the effect it has on us when we listen.

In computing, we will be trying to create our own space themed game using scratch software. There is a video on teams that can guide you through this step by step!
