

Learning from home – Year 1

Maths

This week we are focussing on the value of numbers and exploring **more** (greater, bigger) and **less** (smaller, fewer) than.

Watch: <https://www.bbc.co.uk/iplayer/episode/b0b1sqtz/numberblocks-series-3-blockzilla>

You could count objects at home. Who has more socks? Who has less? Are there more spoons or forks in the kitchen? Use your counting skills to find out.

You could draw pictures in your books of things you have counted to show more/less or you could write numbers or sentences (e.g. I have 5 teddy bears. Mum has 3 teddy bears. I have more.)

English

Go on a sound hunt to find the sounds:

ai ee igh

You could explore things around your house you might take photo's of the objects you find. You may draw pictures or write words in your book. E.g. aim. sail, rain.

Are the sounds at the beginning of the word, in the middle or at the end?

Topic

In science we have been learning about our body parts and our 5 senses (touch, taste, smell, sight and hearing).

Use your super senses around the home. Choose 3 rooms in your house and use your senses in each one.

Think about how you can show what you found for each super sense!
