

# Home Learning Year 5

w/c 05/10/20

## English

This week in English we are looking at grammar.

We are going to be focussing on revision of word classes, focussing specifically on: adjectives, verbs, nouns, adverbs and expanded noun phrases.

The children will be writing sentences about their class novel, 'The witches' and identifying the types of words used in the sentences.

Please see the links below for some activities to complete...

## Maths

This week in maths we will be practising subtraction calculations where there needs to be an exchange.

$$\begin{array}{r} 6 \cancel{7} 12 \\ - 56 \\ \hline 16 \end{array}$$

Please see the links for some helpful printouts to get you going!

## Topic

This week in topic we will be:

**Designing our own map in Geography.** The design must include all grid references (4 and 6 grid referencing) and an Island design, supported with a relevant key.

In Science, we are researching and explaining what reversible changes are. We will be understanding what materials dissolve and how changes of state occur.
