

Dear Parents/Carers

**Evidence for Learning.**

We are aware that some of our young people find it difficult to tell you about their day at school. At Haymerle School we have an ICT application (app) that you can access from tablets and phones. The app is called the EFL (Evidence for Learning) Family App. Using the app lets you see photos of your child at school with staff comments to keep you up to date.

The app has additional features allowing you to comment on your child's learning and even upload some of your own wow moments or activities the children have enjoyed at the weekend so these can then be shared with the class.

**Getting Started**

All we need is an email address

Please read the attached fact sheet which I hope you will find useful.

We will run some face to face and online support sessions for parents and carers to help set up your app if needed.

If you want to access the app, please sign the permission slip confirming your agree to our sharing photos and videos with you. Please indicate below if you are happy for your child to be in group photos with their class.

Pupil's Name: \_\_\_\_\_ Class: \_\_\_\_\_

The journal can only be accessed by authorised users (school staff and the parents/carers of each child).

As some photos may be group photos your son/daughter may be in photos sent to other parents. Group photos will not include pupils who are not allowed to be photographed.

**In line with our safe guarding policy we ask that nothing from school is entered onto any social media site.**

**If this does occur your account will be de-activated.**

Please sign below to confirm your agreement to abide by these conditions.
