

Home Learning Ideas

Summer 1

In Science this half term, we will be learning about animals and their life cycles.

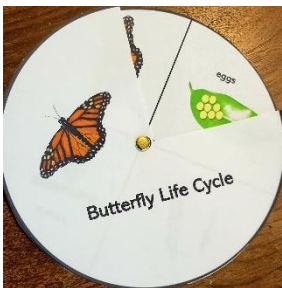

In History, we will be learning about pirates and smugglers.

In DT, we will be learning to sew, using backstitch.

Home Learning is encouraged so that your child can share with you some of the knowledge and skills learnt in school as well as allow them to learn more and follow their own areas of interest. It can also help your child to become more involved in the learning and become more independent with their thinking. If you would like some ideas please use the list below, but these are merely suggestions, and it would be great to see what the children think of themselves.

We can't wait to see what the children produce this half term...

Home Learning Ideas

- Create a life cycle wheel for an animal of your choice.
- Practice your sewing skills. You could make a pirate finger puppet or add a design to an old t-shirt.

- Create a junk model pirate ship.
- Create a pirate map. Can you use a key to show key places and features?
- Write a story about going on an adventure across the horizon. What amazing, new lands will you discover?
