

Home Learning Ideas

Year 3: Summer 1

Home Learning is encouraged so that your child can share with you some of the knowledge and skills learnt in school as well as allow them to learn more and follow their own areas of interest. It can also help your child to become more involved in the learning and become more independent with their thinking. If you would like some ideas please use the list below, but these are merely suggestions, and it would be great to see what the children think of themselves.

We can't wait to see what the children produce this half term...

- Research a famous journey/expedition or explorer from history and make a fact file about it
- If you were going to be an explorer, where would you explore? Why?
- Make a poster about Shackleton's expedition to the Antarctic or the Titanic's journey
- Write a diary entry from the perspective of Shackleton or a passenger on the Titanic
- Design an outfit for a passenger on the Titanic- what different classes of passenger were there?
- Create a model of a ship (you could use the HMS Endurance or the Titanic as inspiration). Could you make it float? What materials would you need for this?
- Practise sewing ready for our DT project- what different stitches do you know?
