

Dear Parents/Carers,

Home Learning Workbooks

We have now taken delivery of our brand new Maths and English workbooks. These books are for the children to work in during home learning. They can be used to supplement online learning but can also be used instead of an online lesson, particularly when it is difficult for your child to access a device or when you feel that your child needs a break away from the screen.

We are currently packing the two books along with an exercise book and some blank A4 paper into a sealed and named plastic wallet.

Key Workers' Children

We will hand a pack to each of the key workers' children in school today (or whenever they are next in school) and they can take these home at the end of the day.

The key workers' children can work in these books on the days that they are not in school. If they are in school full-time they can use these books for homework activities once or twice a week.

Full-Time Home Learning Children

As from tomorrow (Wednesday 13th January), these packs will be available for you to pick up from outside the main entrance of the Junior Building. Please do not enter the building as the packs will be sited under the canopy for you. The packs will be organised for you in alphabetical order according to surname, so that you can access your child's pack with minimum handling. Please use the hand sanitiser provided **before** finding your child's pack.

Thank you once again for all your support and co-operation.

The Year 6 Team
