23rd April 2021

Hi everyone,

This week, we have been learning about farm animals. We have practised reading and writing the animal names and read lots of stories set on a Farm. These included 'What the ladybird heard' and 'The Little Red Hen'. We hope you have enjoyed reading at home as well.

We talked about what happens on a farm and learnt about farms from around the world.

In maths, we added numbers by counting on from the biggest number and investigated Hundreds, Tens and Units.

In our 'Wild At Heart' session, the children made habitats for an animal using natural materials.

Following on from Easter, we have talked about what happened to Jesus' disciples after he returned to His father in heaven.

As we approach Summer with great optimism, please send your child in each day with a named sun hat and apply sun cream **before** school each morning. We are unable to put sun cream on the children during the day, but if you show your child how to apply it, we can supervise this. Sunglasses are not really necessary, but if your child wishes to wear them at school, please ensure they are clearly named. Please remember to send water bottles every day as we are encouraging the children to stay hydrated. No matter what the weather, we do ask you to always send your child in a suitable coat to ensure they can still go out, come rain or shine.

Thank you.

Home Challenge!

We are challenging the children to see who can come up with the most interesting or unusual animal fact.

Please help them to do some research at home and record their fact or facts to report back to the class over the next few weeks.

Can You Help?

Please send in kitchen roll tubes, interesting junk modelling materials and any small boxes, such as shoe boxes, for some creative projects over the next few weeks. No toilet roll tubes thank you.
