

# Class 4 Homework

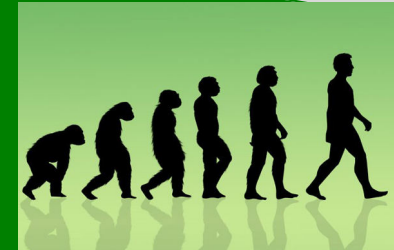

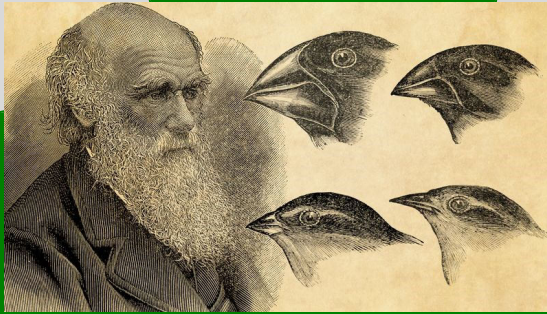

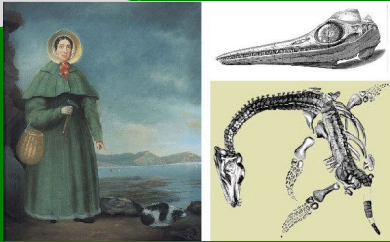

Make a wordsearch using technical terms.  
Eg. Endangered—Evolution—Adaptation—  
Habitat

Explore your garden for insects. What will you find? Take a picture, find out what it evolved from and add to Seesaw.

Research the Galapagos Islands. Where are they? Why are they so special?

Research Mary Anning or Charles Darwin. Who are they and why are they famous?

Make a small model of your favourite animal in its habitat.

You have explored a new land and discovered a new species. Draw a picture of your discovery, give it a name and write about its habitat, what it eats and how it has adapted.

You have now discovered a new plant. Write a diary entry of how you discovered it. Draw and label your plant. Don't forget to name it.

Make a fossil of a plant or animal of your choice.

You have found out that some animals are becoming extinct. List three endangered animals and explain why they are at risk.

**Don't forget!!**

Practise your times tables on TT and your spellings on spelling frame, and don't forget to read three times.
