

# LINC19-25

## Learning, Independence, Needs & Care

LINC19-25 is a new young adult provision specifically suited to meet the needs of young adults with PMLD. This provision will be initially based at Highfield Littleport Academy and will then move to Highfield Ely Academy in 2020.

LINC19-25 will offer specialist therapy services, such as Occupational Therapy and Physiotherapy and be able to meet the personal, daily and medical needs of young adults with PMLD.

We have number of on-site facilities to support the learning and needs of our young adults:

- on-site hydrotherapy pool
- over-head tracking systems in all learning environments
- dedicated changing rooms,
- access to specialist services such as Physiotherapy and Occupational Therapy,
- sensory garden
- horticultural area
- adapted kitchen and flat for lifelong learning activities
- sports facilities.

We will constantly track the progress of our young adults and offer accredited courses at LINC19-25. The exact program of study is mainly dependent on what has been studied prior to LINC 19-25. We can offer two accredited ASDAN courses: ASDAN Towards Independence and ASDAN Personal Progress.
