REMOTE LEARNING POLICY

THIS POLICY WAS APPROVED:	SPRING 2023
THIS POLICY WILL BE REVIEWED:	SPRING 2024
MEMBER OF STAFF WITH RESPONSIBILITY FOR REVIEW:	YVONNE SKILLERN

1. INTRODUCTION

As a result of the COVID-19 pandemic, the majority of Schools and Academies in the UK have had periods of closure and/or have reduced numbers in order to maintain a safe learning environment. However, Special School/Academies, Alternative provision and settings have, in the main, remained open. As special schools, meeting the individual needs of every student continues to be our main objective.

To address the potential reduction in numbers of pupils attending school and other settings due to self-isolation, of staff and pupils, we are developing a system of remote learning. This gives every student the opportunity to continue with education during this time. However, we recognise that the potential to access home learning will vary from learner to learner. This policy takes this into account.

This system of remote learning could also be used for the settings general duty to meet the learning needs of pupils with medical conditions, offering a long term, supportive solution to ensuring access to high quality education.

This policy is produced in consultation with local special heads, the Local Authority (under their 15 day duty – Supporting pupils with Medical needs) and staff. As a result, the broad content of this policy is shared between the local area special School/Academies including SEMH & AP, and the Local Authority.

This policy will apply to all short-term absences related to illness and isolation, short term self-isolation occurrences as well as extended Academy closure as instructed by the Government or Local Authority. Our offer varies according to the reason for absence and whether the pupil is well enough to access home learning.

Where elements of the EHCP are not able to fulfilled at home, we would discuss this with parents, and a Section M completed if needed detailing any EHCP easements that are necessary for the absence period.

1. PHILOSOPHY

We are committed to working in close partnership with families and we recognise each family is unique. This plan complies with the expectations and principles outlined by the DFE and offers remote learning opportunities for all children. Some households have limited access to devices and will require hard-copies of work and resources. Highfield Academies will be as supportive as is practically possible to enable every child to continue to learn during any periods of school closure or when a child is unable to attend.

In the event that a pupil is not able to attend school, as a result of the COVID-19 pandemic or otherwise, pupils will be provided with an education remotely and will be expected to engage in the home learning activities on offer. The only exception will be made under the circumstance that a pupil is unwell themselves.

Our Academies recognise the additional workload that teachers will have in teaching pupils on site as well as providing home learning for those not able to be in school. We are working collaboratively with other schools to build a bank of online learning resources in order to support the offer as outlined in this policy.

14.1. General Illness

Students who are not attending school and who are deemed unfit to be at school by a parent, school staff, carer or medical professional will not usually have learning activities provided. The expectation is that the student is not well enough for school so is not well enough to engage in learning. All other students are attending school as normal in this period.

If there are particular (for e.g. if a pupil has a broken leg) circumstances that the learner is well enough to access learning, the self-isolation provision can be accessed.

14.3. Students who are self-isolating or during full or partial lockdown with whole class closure

Students who are self-isolating and are well, will have access to the remote learning offer according to the recommended outline below. A member of staff will make contact with parents and carers on the first day of the absence starting to discuss the needs and requirements of the child. We understand that some students will be reluctant or unable to engage in learning in a different setting and there is no expectation for the full commitment to be fulfilled.

Suggested activities targeting their communication, interaction, engagement, physical and sensory needs will be shared with parents or carers. There will also be some opportunities for live online interaction with staff.		

14.3. Parental Choice to withdraw from school

Where a parent/carer chooses not to send their child to school when full school provision is available there will not be an expectation to provide a home learning offer. Full learning is provided by the school on site.
