

WB 10th June 2024

Hillside Arts and Culture Week 2024

We are looking forward to **Arts and Culture Week** which will be held in the week beginning 17th June. We will be working closely with the reception classes on art projects with the theme of 'Under the Sea' and also exploring movement and music. Our learning has been focused on Under the Sea and the children have been impressing us with their knowledge of the creatures that live there!

Friday 21st June—Careers Day

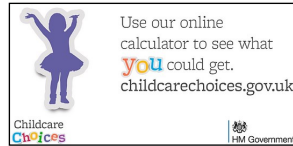

Come dressed up as a career you would like to have when you grow up.

Great News!

From September 2024, we will be offering 30 hours childcare in the nursery.

Please check this website www.childcarechoices.gov.uk to see if you are eligible for funded hours.

You will be able to purchase additional hours, even if you are not eligible for funded hours.

More information to follow!

Now the weather is finally a little warmer, please put a NAMED sun hat in your child's bag and ensure that they are wearing sun cream.

Our school value of the week is

Be Safe

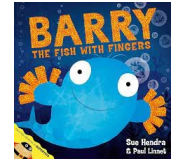

How have you been safe this week? Perhaps you have been careful when moving around the classroom or listened to an adult when they gave you instructions to keep you safe.

It's great to be safe!

Monday 3rd — Literacy

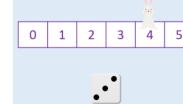

Reading our story of the week, 'Barry The Fish with Fingers' by Sue Hendra. Hear the book being read by Shane Richie here:

<https://www.youtube.com/watch?v=lhyXZMWJXvg>

Tuesday 4th — Maths

Mrs Teevan-Hanman will be teaching in the nursery today.

We will be looking at numbers 0-5 and learning what comes after a given number. For example, 4 comes after 3.

Wednesday 5th — P.E & Shared Reading

We will discuss our Sports Day happening on Thursday 4th July and practise some of the events.

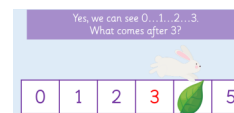

11am—Parents, please join us for **Shared Reading**. This is a time where we share a book together. You are then able to choose one to take home for the week.

Thursday 6th — Wild Challenge

This week we will be tapping for bugs in our nursery garden. We will then look at our bug ID sheets to identify what we have found.

Friday 7th — Maths

Today we will be looking at hidden numbers on the number track—what number comes after 3?

Starting School

School Stars

Over the next 5 weeks, we will be sharing more details linked to the statements in the picture.

These are the 'ingredients' that help your child to be ready for school.

These statements are worked on throughout your child's entire time in nursery so will be useful information to have for all children.

Summer: Week 8 Number Composition

When you spot numbers in the environment around you, for instance door numbers on the way to school, ask your children to identify the numeral and then ask them “What comes after that number?” With door numbers you could point out how the next number is on the opposite side of the road.

Play with some dominoes. Look at which number is represented on each domino. See if your child can sequence the dominoes e.g. This domino shows 1 spot. What comes after? Can you find a domino that shows 2 spots? What comes after that?

Sing counting rhymes that recite the numbers in order e.g. 1, 2, 3, 4, 5 Once I Caught a Fish Alive or One, Two Buckle My Shoe. Pretend to forget the words and ask your child to help you e.g. you could say, “What comes after 3?”

0 to 5 Number Track
