“Achieving Greatness Together”

Friday 22nd March, 2024

*Dragi părinți și îngrijitori, sper că sunteți bine.*

*Trimestrul de vară a început incredibil de bine: atitudini pozitive față de învățare, întâlniri de prezentare cu familii noi, întâlniri RSE cu părinții, vizite în uniforme inteligente de la PC Sam, evenimente de evaluare a subiectelor și comportamentelor bune de învățare! PC Sam a spus: „Copiii s-au comportat foarte bine, au venit liniștiți pe hol și s-au așezat cuminiți”.*

*În acest termen, avem și mai multe evenimente pentru a sprijini parteneriatul nostru cu școala acasă, de exemplu cursuri pentru părinți, evenimente regulate de cafea și ședințe ale Consiliului părinților. Căutăm în special mai mulți Părinți Guvernatori (mai multe detalii la pagina 2) și părinți care să ne sprijine să ne îmbunătățim programa. Dacă sunteți interesat să ne susțineți în orice fel, nu ezitați să ne contactați.*

*Vă dorim un weekend minunat .*

*Cele mai bune gânduri,*

*D-na. Wass*

**We need you!**

## Join our Local Governing Body (LGB)

**We're looking for Governors to join the LGB at Hillside Primary School.**

**A Governor can be someone who is a parent, carer or family member of a child at our school.**

**Someone who is not currently connected to the school who brings expertise, possibly from a sector outside of education, can also join the LGB as a Governor.**

**If you have a passion for supporting education and an interest in representing the local community, get in touch today!**

**This is a volunteer role, with a commitment to attend LGB meetings at the school.**

**In return, we offer all the training and ongoing support you need. Plus it's an opportunity to make a real difference to the lives of local children... and it's a great addition to your CV!**

# What Parents & Educators Need to Know about ENERGY DRINKS

## WHAT ARE THE RISKS?

Energy drinks are highly caffeinated beverages often consumed for a quick energy boost. However, excessive intake can lead to health risks like increased heart rate and sleep disturbances. Statistics underline these products' popularity among young people – many of whom consume them regularly. Here's our expert's advice on addressing the concerns surrounding energy drink consumption in adolescents.

### HIGH CAFFEINE CONTENT

Most energy drinks contain high levels of caffeine: often much more than a typical cup of coffee or fizzy drink. Excessive caffeine consumption can lead to increased heart rate, high blood pressure, anxiety, insomnia, digestive issues and – in extreme cases – even more severe conditions. For children and adolescents, whose bodies are still developing, excessive caffeine intake can be particularly harmful.

### INCREASED RISK OF HEART PROBLEMS

The combination of high caffeine levels and the other stimulants found in energy drinks can put extra strain on the cardiovascular system. Potentially, this could lead to irregular heart rhythms, palpitations and increased future risk of heart attack – especially in individuals who have an underlying heart condition.

### IMPACT ON MENTAL HEALTH

The significant levels of caffeine and sugar in energy drinks can exacerbate anxiety, nervousness and even – in susceptible individuals – contribute to panic attacks. Additionally, the crash that often follows the initial energy boost can actually make mood swings worse and possibly lead to feelings of depression and irritability.

### DISRUPTED SLEEP PATTERNS

Consuming energy drinks, especially during the afternoon or evening, can disrupt normal sleep patterns. The stimulating effects of caffeine can make it difficult for children and young adults to fall asleep – leading to insufficient rest and its associated health risks, including impaired cognitive function, mood disturbances and decreased academic performance.

### LINKS TO SUBSTANCE ABUSE

Some research has suggested a correlation between energy drink consumption and higher rates of alcohol and drug use among young adults. Young people may mix energy drinks with alcohol, mistakenly believing that the energy drinks' stimulant effects will counteract the sedative nature of alcohol. This combination, however, can be dangerous and increase the risk of accidents, injuries and alcohol poisoning.

### POTENTIAL FOR DEPENDENCY

Frequent consumption of energy drinks can lead to tolerance – meaning that individuals may need to consume increasing amounts to continue achieving the desired effects. This can potentially lead to dependency and addiction, especially in younger individuals who may be more vulnerable to addictive behaviours.

## Advice for Parents & Educators

### LIMIT CONSUMPTION

It's wise to educate young people about the potential risks related to energy drinks, emphasising the consequences of excessive caffeine consumption. Encourage healthier alternatives like water, herbal teas or natural fruit juices. You can model healthy behaviours by restricting your own consumption of energy drinks and creating a supportive environment for informed choices.

### PROMOTE HEALTHIER HABITS

Schools can help with this issue by including discussions about the possible dangers of energy drink consumption into their health education curriculum. Encourage children and young adults to critically evaluate the marketing messages they see and make informed choices about their health. Teachers could also provide resources and support for children to identify healthier alternatives.

### ADVOCATE FOR REGULATION

If this is something you're particularly passionate about, you could work with local health organisations and policymakers to advocate for regulations on energy drink sales to children and young people. Raise awareness among parents, educators and community members about the potential health risks associated with energy drinks and support initiatives promoting healthier options in schools and communities.

### SET A POSITIVE EXAMPLE

Adults can model healthy behaviours by visibly choosing alternative beverages instead of energy drinks. Maintain open communication with children and young adults about the reasons for limiting energy drink consumption – underlining the importance of balanced nutrition, adequate hydration and sufficient sleep for overall wellbeing and academic success.
