

CLIMATE ACTION DAY - THANK YOU

Thank you to the hundreds of students who signed the pledge to say they would take some really simple steps to help the environment. Our Chilly water bottle winners have been contacted. As a reminder we asked you to:

- Bring your own bottle to College, rather than buying plastic every day. It helps save the planet and your wallet!
- If you have bought a drink at Starbucks or Costa, recycle the cup or even better, have your own reusable cup filled
- When buying new clothes, try to buy second hand from sites like Depop and eBay
- Try to switch to plastic free alternatives where possible- metal straws, bringing your own cutlery, reusable coffee cups, and even bamboo toothbrushes make a huge difference
- Try to eat less meat- animal agriculture produces more greenhouse gases than all transport put together, and is the leading cause of rainforest destruction

Want to save money on your coffee? If you bring your own cup to use you'll receive a small discount!

COLLEGE CLOSURE THIS FRIDAY
