

NETBALL

**HUDDERSFIELD NEW COLLEGE
SPORTS PROGRAMME**

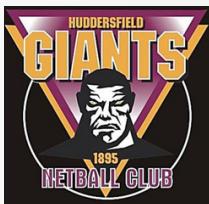

@hncnetball

The College's Netball Programme is a well-established and successful team who play within the British College of Sport framework, playing league and cup fixtures across the North of England.

The Netball Team trains weekly in the College's multi-million pound Sports Barn, playing weekly fixtures on a Wednesday. The team also benefits from having strong links to the Huddersfield Giant's Netball Team, with the club basing its training provision in the Sports Barn.

Places on the team are by trial, and you will play competitively whilst learning and successful applicants will have the opportunity to study for additional qualifications.

Jamie Marsden - Director of Sport and Head of Academies

Why trial for an Academy or Development Programme?

Academies and Development Programmes allow students to train in a professional environment alongside enjoying an outstanding academic experience. Students can:

- Receive outstanding coaching to improve performance
- Play at the highest competitive level
- Access additional qualifications such as coaching awards
