Art

Vision: At Hollybrook Schools our vision for Art is for children to find enjoyment and creativity in their own and the Artwork of others. We want children to be competent in using a range of materials and show their creative side.

Intent: We aim to:

- To foster the ability of our pupils to use a range of materials and techniques competently.
- To encourage children to appreciate a wide range of artists and art works, using artistic vocabulary.
- To inspire children to express ideas and feelings through creative work in both two and three dimensions.
- To develop observational and descriptive skills.

Implementation: How will we achieve our aims?

At Hollybrook we have an engaging curriculum that allows the children to explore the works of others, learn new Art skills and apply them in their own pieces of art. The children evaluate and improve their work and use artistic vocabulary to describe and explain their ideas. We celebrate through 3 topics of art work per year that include, drawing, painting and mixed media, sculpture and 3D work per year group. Additionally, we celebrate 'arts' during a well planned art week where parents are invited to showcase the wonderful work in an art gallery at the end of the week.

What do Hollybrook pupils learn to do in Art? (Disciplinary Knowledge)

Make observations	Develop control	Select and Use	Reflect and Evaluate
