Marvellous Monthly Maths

April 2025

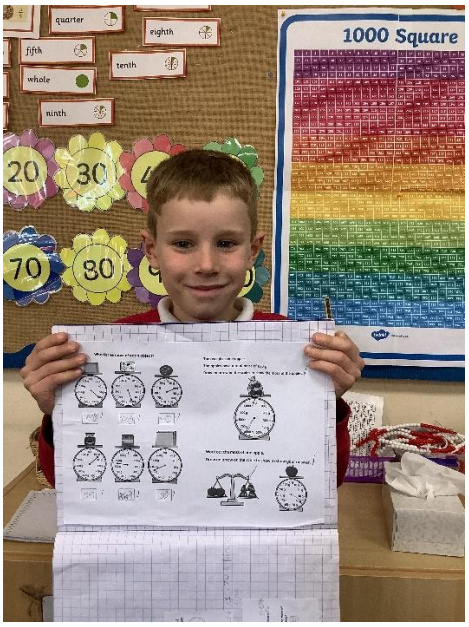

Year 1

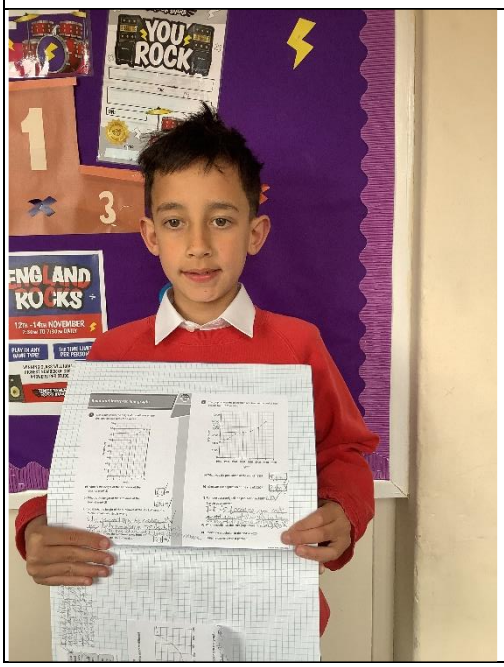

Edie has been learning all about doubling and halving in Year 1. She has accurately learned both skills and has been reasoning clearly about exactly what halving means.

Year 3

Year 3 have been learning about measures. The children have learnt about centimetres and millimetres before moving on to mass. Abraham was able to accurately read the scales and has been engaging actively in all his maths lessons.

Year 5

Year 5 have been working hard on drawing and interpreting line graphs. Jack has been looking closely at the scales on each axis and drawing his line graphs carefully. He has also been practsing his four operations every day and has become very fluent with his methods.
