Year 5	**<u>Refining Handwriting and Speed & Fluidity Skills</u>** The Gross and Fine Motor Skills (Key Strengths) needed for handwriting were developed throughout the Foundation Stage and Key Stage 1 and were refined throughout Lower Key Stage 2 (Years 3 & 4). However, due to the individual development nature of a child's Key Strengths acquisition, a structured approach needs to continue to build upon refining and maintaining these skills. Using a variety of activities and dictations, which continue to support, develop and maintain both the Key Strengths and Key abilities a child should be working at the Expected Level and/or at a Greater Depth with the Expected Level; by the end of Key Stage 2 for handwriting.					
Year 6
