

Safeguarding Alert from Sefton Council

We have been sent the following communication from Sefton Safeguarding team

"Dear all

By now you may be aware of malicious communications sent to a very small number of schools across Merseyside in the early hours of this morning.

I know this may be concerning news however I would like to reassure you that we are not one of these schools and there is absolutely no cause for concern.

Furthermore the small number of schools which did receive this communication have been informed that it is not believed to be genuine.

Please do not attempt to attend school grounds in relation to this matter as we are operating a normal school day and we do not wish to disrupt the learning of our pupils.

Please only attend school if you have a pre-arranged or agreed reason to do so outside of normal collection time.

Thank you."
