Thursday, April 15, 2021

Dear Parents,

To support students, we would like them to practise for the end of year exams. Therefore, the science department are holding three 1 hour exams on **Tuesday 27th - Thursday 29th April** in formal exam conditions in the hall. Information about each exam, including a revision list, will be on Class Charts. In addition, other subjects including business, geography, music, languages and RE, will hold exams in lesson time during that week. Again, details and revision lists will be on Class Charts.

It is important, now that the Year 10 students are one year away from their GCSE exams, that they begin to develop revision skills. We strongly encourage them to use both GCSEPod (www.gcsepod.com) and Sececa (www.senecalearning.com). Your child has a school log-on for GCSEPod and have created their own password which they have written into their planner. Each evening, we recommend short, focused note taking using these resources and the revision lists provided on Class Charts.

Mrs K Parker
Deputy Headteacher
