

Further clarification for hairstyles

For health and safety reasons students may be asked to tie long hair back for certain activities.

Recently, a fashionable hair style, particularly for boys, has been to grow the hair long enough so that it covers the eyes, and in some cases, almost the whole face. In the classroom, this can be problematic. Pupils with this style are often distracted by having to continually flick the hair out of their eyes. Also, communication is impaired between pupil and teacher if the hair falls over his/her eyes. Therefore, if your child does not want to have his/her hair tied back when in school, please ensure that the hair is cut so that this problem does not arise.

Elaborate hair decorations, including large bows are not permitted. Ribbons and very small bows are acceptable in black, grey or purple. We do not accept any extreme hairstyles: no stepped styles; no bullet creases or patterns shaved in. Natural hair colours only please.
