

Remember
in Year R,
we
learned:

Mary Anning
discovered fossils

Year 3

British History The Stone Age

Later, in
Y4, you will
learn:

How the Romans
changed how we
built houses and
what we ate

Understand:

- | | |
|---|--|
| 1 | I can place the three areas of stone age time on a timeline. |
| 2 | I have found out about the tools stone age people used. |
| 3 | I know how houses were built in the stone age. |
| 4 | I have learned about Skara Brae and why it is important to historians. |
| 5 | I know about The beaker people. |
| 6 | I have explored life in a hillfort. |

Can you remember?

Who was Mary Anning?

What did she discover on the Jurassic coast?

Year 3 retrieval questions

What did stone age people build houses from?

What can flint be used for?

What did the 'invention' of fire NOT help stone age people to do?

What did people start to do in the iron age?

What are the three areas of time in the stone age?

What have we learned from cave paintings?
