

Remember
we
learned:

- Year 3 – 8 compass points
- Year 3 – human and physical features of different areas

Year 4

**Locational
Knowledge**
Comparing
localities

Later, in
Y6, you will
learn:

Year 6 – Biomes and
rainforests

Understand:

1	To identify South America on a map and describe its position in relation to the UK
2	Identify the countries in South America and specifically Brazil
3	To recognise the human features of a South American country
4	To recognise the physical features of a South American country.
5	Compare the human and physical features of the UK to a South American country.
6	To identify the Amazon rainforest as a major physical feature

Can you remember?

What kind of human features are likely to be found in the UK?

Can you recall the points on a compass?

Year 4 retrieval questions

1. Can you name four South American countries?
2. Can you locate Brazil on a map?
3. Can you name 4 human features of Brazil that are different from the UK?

Enquiry Question - What makes South America ideal for growing Cocoa beans to make chocolate?
