

Remember
we
learned:

- The seven continents and five oceans.
- The names of some key rivers around the world including the Thames and the Nile.
- The main biomes and climate zones around the world, including rainforests.
- The climate of places is affected by their location (e.g. the equator, Tropics)
- The effects of climate change and pollution on the Earth

Year 6

Human and Physical Geography

Rainforests and Deserts

Later, in
Y6, you will
learn:

Year 6 – I can locate
places studied in
relation to the
equator, the tropics of
cancer and Capricorn,
longitude and
latitude

Understand:

1	Know where rainforests are located in the world
2	How climate zones differ
3	Layers of the rainforest (emergent, canopy, understory, forest floor)

Can you remember?

The longest rivers?

The continents?

The main biomes?

Where the equator and tropics are?

Year 6 retrieval questions

1. Why can rainforests not be found in the UK?
2. Where are rainforests/deserts found?
3. Where are the largest deserts/rainforests?
4. Enquiry Question: Why is the rainforest important to the welfare of the entire planet?

Key Vocabulary

- desert
- distribution
- equator
- global
- natural resources
- palm oil
- pollution
- deforestation
- tundra
- vegetation
