

## ARE YOU OUT OF THE ZONE?

- We know that not everyone lives within a reasonable walking or cycling distance to the school but there are alternatives to travelling by car...
- Have you considered getting the bus to school? Local services are shown below.
- If travelling by car is your only option, please park outside of the 5 minute walking zone shown below. You will still get up to 20 minutes of physical activity a day and you won't get caught up in the daily congestion outside of the school gates.

## ARE YOU IN THE ZONE?

It should take you less than 15 minutes to walk or cycle from the zones featured on the map...

## Did you know?

- Cycling with your child to school instead of hopping in the car could save you £500 a year! (A map with all the local cycle routes is available from the Tourist Information Centre in the Dolphin Centre).
- A 15 minute walk to and from school twice a day could give you an hour of physical activity, helping to control your weight and boost your immune system. It's pretty good for the kids too!

These maps are to be used as a guide only and it remains the responsibility of parents or carers to decide if their child is able to walk, cycle or take a bus to school. The travel zones shown are based upon an average walking speed of 3 miles an hour and a cycling speed of 8 miles an hour.

Although the maps show quieter roads and cycle paths they should not be used as a means of classifying safe walking or cycling routes to school.

For the purpose of applying the schools admission policy in relation to the shortest safe walking or cycling journey to school, parents or carers should speak to the School Admissions Team on 01325 388027.
