

Robert & Thomas' Pizza Wheels

We made some pizza wheels using puff pastry, tomato puree and grated cheese.

1. Cut the pastry in half and spread it with tomato puree.
2. Sprinkle with grated cheese.
3. Roll up and cut into slices.
4. Put on a baking tray to be cooked at 200c for about 15-20 minutes.
5. Leave to cool.

We had ours for lunch with vegetable soup. They were very yummy.
