

Minutes of JLT meeting 9.1.17

### **The Creative Garden**

The children shared the ideas for the creative garden that they had discussed with their respective classes. Ideas included :

Each class to have its own area to plant, a fishpond ,willow dens and arches, homes for creatures like hedgehogs, bird feeders ,a sensory area, a friendship bench, an' ideas den'.

### **Lunch time improvements**

The children were concerned that lunch times in the winter could be difficult as there was less space to play on the playground. They put forward the idea of an option to come inside to sit quietly and read or draw with their friends. We decided that the Woodland room could be used for this if the midday supervisors would take it in turns to supervise inside. There would need to be a limit to numbers and the number of chairs would dictate this.

### **AOB:**

The Friendship bench is not being used properly and the children are going to remind their class about how it should be used. It was suggested that it be moved as it is not in an ideal location at the moment.

Toilet locks on the boys' toilets are very stiff and keep jamming. Mrs Stansfield agreed she would talk to Mr Henderson about this.
