# Fluent in Five 

## Daily Arithmetic Practice Week 6

## Year 5

## Year 5 - Week 6

Please note, we always recommend reading 'Your Guide to Using Fluent in Five' before using these resources with your class.

## This week in a nutshell

- Mental addition and subtraction continues to rely on place value knowledge, including adding and subtracting near multiples of 1,000.
- Mental division focuses on dividing multiples of 10 by another multiple of 10.
- Written addition continues to focus on the addition and subtraction of numbers with more than 4 digits, including where the inverse relationship needs to be recognised.
- Written division includes dividing a 4 digit number by either 8 or 6 .
- Subtracting fractions with the same denominator is a focus for the first time.

Fluent in Five - Year 5
Week 6 - Day 1

## Answer Sheet

Remember, ( $M$ ) is written next to those questions you should have tried to solve mentally first. (W) means a written method is usually more efficient for this question.

1. $\frac{10}{12}-\frac{1}{12}=\frac{\mathbf{9}}{\mathbf{1 2}}$ or $\frac{\mathbf{3}}{\mathbf{4}}$
2. $87,431-\mathbf{2 , 5 8 8}=84,843(\mathrm{~W})$
3. $901+901=\mathbf{1 , 8 0 2}(\mathrm{M})$
4. $120 \div 20=6(\mathrm{M})$
5. $1,518 \div 6=\mathbf{2 5 3}(W)$
