

KS1 Living Things and their Habitats Knowledge Mat

Subject Specific Vocabulary		Interesting Books	Sticky Knowledge about habitats
dinosaur	Dinosaurs were the main animals on Earth for more than 150 million years. They were lizard-like reptiles.	 	<input type="checkbox"/> A habitat is a place that an animal lives. It provides the animal with food, water and shelter. <input type="checkbox"/> There are many different sorts of habitats around the world from forests to grasslands and from mountain slopes to deserts. <input type="checkbox"/> Animals like cockroaches are really important in a habitat -they eat the dead plants and recycle the nutrients back into the soil. <input type="checkbox"/> People are causing harm to many habitats. Forests are being burnt down, lakes and rivers polluted and the polar ice caps are melting. <input type="checkbox"/> Because resources like water and food may be limited, plant and animal species often compete with each other for food and water. <input type="checkbox"/> Because the Earth is always changing, habitats are constantly changing.
indigenous	Produced, growing, living, or occurring naturally in a particular region or environment.		
rivers	A river is a flowing, moving stream of water. Usually a river feeds water into an ocean, lake, pond, or even another river.		
woodland	Woodland is a low-density forest with plenty of sunlight and limited shade.		
ponds	A pond is a body of water smaller than a lake. Ponds support a very wide range of wildlife.		
sea	A sea is part of the ocean partially enclosed by land. Seas are found on the margins of the ocean and are partially enclosed by land.		
rainforest	Tropical rainforests are forests with tall trees, warm climates and lots of rain.		
desert	A desert is any large region that gets very little rain each year. Very few plants or animals live in desert areas.		
species	A group of animals, plants or other living things that all share common characteristics and that are all classified as alike in some manner.		
microhabitats	Microhabitats are the small-scale physical requirements of a particular organism or a community of organisms.		
		Important facts to know by the end of the habitats topic: <ul style="list-style-type: none"> • know how a specific habitat provides for the basic needs of things living there • identify and name plants and animals in a range of habitats • match living things to their habitat • know how animals find their food • name some different sources of food for animals 	

Our World KS1 Knowledge Mat

Subject Specific Vocabulary			Exciting Books
North Pole	The North Pole is the northernmost place on Earth. When at the North Pole all directions point south.		<h3>Sticky Knowledge about Our World</h3> <ul style="list-style-type: none"> <input type="checkbox"/> The world is made up of 7 continents. <input type="checkbox"/> The continents are Asia, North America, South America, Antarctica, Africa, Europe and Australia. <input type="checkbox"/> Asia is the largest continent in the world. <input type="checkbox"/> Australia is the smallest continent in the world. <input type="checkbox"/> Africa has the most countries. <input type="checkbox"/> The United Kingdom is in Europe.

Key Vocabulary

belief

Something that is true

parable

Short story to teach a lesson

fair

Treat everyone equally

Does not take sides

forgive

Let go of anger against someone

worship

Show love and praise God

KS1 – Unit 1.1 God

What do Christians believe God is like?

Christians believe in God

Christians praise and worship God

Christians find out about God in the Bible

Christians believe God is loving, kind, fair and forgiving

Christians believe God is Lord and King

Stories are used to show some of these beliefs about God

Outcomes

- Identify what a parable is
- Tell the story of the Lost Son
- Explain what the story means to Christians
- Give two examples of a way in which Christians show their belief in God as loving and giving
- Give an example of beliefs into practice in worship
- Can anything be learned from the story?
