Date Shared with Staff:	

1. Context

From 20th March 2020 parents were asked to keep their children at home, wherever possible, and for schools to remain open only for those children of workers critical to the COVID-19 response - who absolutely need to attend.

Schools and all childcare providers were asked to provide care for a limited number of children - children who are vulnerable, and children whose parents are critical to the COVID-19 response and cannot be safely cared for at home.

This addendum of the Howard Primary School Safeguarding and Child Protection policy contains details of our individual safeguarding arrangements in the following areas:

- *Vulnerable children*
- *Attendance monitoring*
- *Designated Safeguarding Lead*
- *Reporting a concern*
- *Safeguarding Training and induction*
- *Safer recruitment/volunteers and movement of staff*
- *Online safety in schools and colleges*
- *Children and online safety away from school and college*
- *Supporting children not in school*
- *Supporting children in school*
- *Peer on Peer Abuse*
- *Key websites and information*

Safeguarding Director

Vulnerable children

Vulnerable children include those who have a social worker and those children and young people up to the age of 25 with education, health and care (EHC) plans. Those who have a social worker include children who have a Child Protection Plan and those who are looked after by the Local Authority. A child may also be deemed to be vulnerable if they have been assessed as being in need or otherwise meet the definition in section 17 of the Children Act 1989.

Those with an EHC plan will be risk-assessed in consultation with the Local Authority and parents, to decide whether they need to continue to be offered a school or college place in order to meet their needs, or whether they can safely have their needs met at home. This could include, if necessary, carers, therapists or clinicians visiting the home to provide any essential services. Many children and young people with EHC plans can safely remain at home.

Senior leaders, especially the Designated Safeguarding Lead (and deputy) know who our most vulnerable children are. They have the flexibility to offer a place to those on the edge of receiving children's social care support.

The Howard will continue to work with and support children's social workers to help protect vulnerable children. This includes working with and supporting children's social workers and the local authority virtual school head (VSH) for looked-after and previously looked-after children.

The lead person for this will be: Rachel Mills (DSL)

There is an expectation that vulnerable children who have a social worker will attend an education setting, so long as they do not have underlying health conditions that put them at risk or special educational needs (EHCP) that mean being in school under different organisation will cause them distress. In circumstances where a parent does not want to bring their child to an education setting, and their child is considered vulnerable, we will explore the reasons for this directly with the social worker and the parent.

Where parents are concerned about the risk of the child contracting COVID19, the school or the social worker will talk through these anxieties with the parent/carer following the advice set out by Public Health England.

We will encourage our vulnerable children and young people to attend a school, including remotely if needed. Every child and parent will have a named contact that will ensure they are supported throughout the closure.

Attendance monitoring

Local authorities and education settings do not need to complete their usual day-to-day attendance processes to follow up on non-attendance.

Together with social workers, we will agree with parents/carers of pupils on Child Protection whether children in need should be attending school – the DSL will then follow up on any pupil that they were expecting to attend, who does not. This could lead to a home visit from the DSL and DDSL.

The DSL will also follow up with any parent or carer of a child of concern who has arranged care for their child(ren) and the child(ren) subsequently do not attend.

To support the above, we will, when communicating with parents/carers and carers, confirm emergency contact numbers are correct and ask for any additional emergency contact numbers where they are available. In all circumstances where a vulnerable child does not take up their place at school, or discontinues, the DSL will notify their social worker.

Safe and well checks – non Child Protection

(Where a disadvantaged pupil is not regularly in attendance at school)

FSM pupils will be contacted weekly by the designated teacher to check provision and how the pupil is. If this is not achieved a concern may be escalated to the DSL or DDSL.

Pupils who are under the local support team will be contacted at least weekly and if not contactable a home visit will be made. Regular contact with the LST is important to ensure the family remain supported.

All contact is to be documented by designated teachers and leads on the safeguarding closure chronology sheet which will be added to the pupil safeguarding folders when the school reopens.

Designated Safeguarding Lead

The Howard Primary School has a Designated Safeguarding Lead (DSL) and a Deputy DSL.

The Designated Safeguarding Lead is: Rachel Mills

The Deputy Designated Safeguarding Lead is: Lydnsey Derry

The optimal scenario is to have a trained DSL (or deputy) available on site. Where this is not the case a trained DSL (or deputy) will be available to be contacted via phone or online video - for example when working from home.

Where a trained DSL (or deputy) is not on site, in addition to the above, a senior leader will assume responsibility for co-ordinating safeguarding on site.

This might include updating and managing access to child protection online management system, CPOMS and liaising with the offsite DSL (or deputy) and as required liaising with children's social workers where they require access to children in need and/or to carry out statutory assessments at the school or college.

It is important that all our staff and volunteers have access to a trained DSL (or deputy). On each day staff on site will be made aware of that person is and how to speak to them.

The DSL will continue to engage with social workers, and attend all multi-agency meetings, which can be done remotely.

Reporting a concern

Where staff have a concern about a child, they should continue to follow the process outlined in the school Safeguarding Policy. Any concern should be reported via e-mail to the DSL immediately. This will ensure that the concern is received.

Staff are reminded of the need to report any concern immediately and without delay.

Where staff are concerned about an adult working with children in the school, they should use a yellow form to report the concern to the headteacher.

If there is a requirement to make a notification to the headteacher whilst away from school, this should be done verbally and followed up with an email to the headteacher.

Concerns around the Headteacher should be directed to the Chair of the Board:

Safeguarding Training and induction

DSL training is very unlikely to take place whilst there remains a threat of the COVID 19 virus.

For the period COVID-19 measures are in place, a DSL (or deputy) who has been trained will continue to be classed as a trained DSL (or deputy) even if they miss their refresher training.

All existing school staff have had safeguarding training and have read part 1 of Keeping Children Safe in Education (2019).

The DSL should communicate with staff any new local arrangements, so they know what to do if they are worried about a child.

Where new staff are recruited, or new volunteers enter school name, they will continue to be provided with a safeguarding induction.

If staff are deployed from another education or children's workforce setting to our school, we will take into account the DfE supplementary guidance on safeguarding children during the COVID-19 pandemic and will accept portability as long as the current employer confirms in writing that:-

- the individual has been subject to an enhanced DBS and children's barred list Check
- there are no known concerns about the individual's suitability to work with Children
- there is no ongoing disciplinary investigation relating to that individual

Upon arrival, they will be given a copy of the receiving setting's child protection policy, confirmation of local processes and confirmation of DSL arrangements.

Safer recruitment/volunteers and movement of staff

It remains essential that people who are unsuitable are not allowed to enter the children's workforce or gain access to children. When recruiting new staff, We will continue to follow the relevant safer recruitment processes for their setting, including, as appropriate, relevant sections in part 3 of Keeping Children Safe in Education (2019) (KCSIE).

In response to COVID-19, the Disclosure and Barring Service (DBS) has made changes to its guidance on standard and enhanced DBS ID checking to minimise the

need for face-to-face contact.

Where we are utilising volunteers, we will continue to follow the checking and risk assessment process as set out in paragraphs 167 to 172 of KCSIE. Under no circumstances will a volunteer who has not been checked be left unsupervised or allowed to work in regulated activity.

We will continue to follow the legal duty to refer to the DBS anyone who has harmed or poses a risk of harm to a child or vulnerable adult. Full details can be found at paragraph 163 of KCSIE.

We will continue to consider and make referrals to the Teaching Regulation Agency (TRA) as per paragraph 166 of KCSIE and the TRA's 'Teacher misconduct advice for making a referral.

During the COVID-19 period all referrals should be made by emailing Misconduct.Teacher@education.gov.uk

Whilst acknowledging the challenge of the current National Emergency, it is essential from a safeguarding perspective that any school is aware, on any given day, which staff/volunteers will be in the school or college, and that appropriate checks have been carried out, especially for anyone engaging in regulated activity. As such, we will continue to keep the single central record (SCR) up to date as outlined in paragraphs 148 to 156 in KCSIE.

Online safety in schools and colleges

We will continue to provide a safe environment, including online. This includes the use of an online filtering systems. Staff will use safe platforms to direct pupils in their home learning (such as education city, TT Rock Stars, Numbots.)

Where students are using computers in school, appropriate supervision will be in place.

The e-safety coordinator will ensure that relevant webpages are accessible and suitable for pupil use. They will investigate with the support of the DSL different methods of support and teaching including use of video clips. Staff will not use online chat facilities to communicate with pupils unless agreed by the DSL with strict guidelines.

All platforms that are used will be approved and staff will have received the necessary training in these to ensure their safe use. (The Local Authority ESAS team advise against stress testing any new platforms or technology during the COVID-19 outbreak and recommend schools use tools they are familiar with to ensure the best level of safety for staff and pupils).

Staff must only communicate with parents via e-mail using a parent's e-mail address and by phone only in emergencies where their caller ID can be protected. All calls must be recorded on the safeguarding communication chronology.

Children and online safety away from school and college

It is important that all staff who interact with children, including online, continue to look out for signs a child may be at risk.

Any such concerns should be dealt with as per the Safeguarding Policy and where appropriate referrals should still be made to children's social care and as required, the police.

Online teaching should follow the same principles as set out in the code of conduct.

Staff will be briefed on all of the above prior to closure.

We will ensure any use of online learning tools and systems are in line with privacy and data protection/GDPR requirements.

Supporting children not in school

We are committed to ensuring the safety and wellbeing of all its Children and Young people.

Where the DSL has identified a child to be on the edge of social care support, or who would normally receive pastoral-type support in school, they should ensure that a robust communication plan is in place for that child or young person.

Details of this plan must be recorded on the safeguarding communication chronology, as should a record of contact have made.

The communication plans can include; remote contact, phone contact, door-step visits.

Other individualised contact methods should be considered and recorded.

The Howard and its DSL will work closely with all stakeholders to maximise the effectiveness of any communication plan.

This plan must be reviewed regularly (at least once a fortnight) and where concerns arise, the DSL will consider any referrals as appropriate.

The school will share safeguarding messages on its website and social media pages. We recognise that school is a protective factor for children and young people, and the current circumstances, can affect the mental health of pupils and their

parents/carers. Our staff need to be aware of this in setting expectations of pupils' work where they are at home. Lorna James is available to support in wellbeing advice where a concern is raised for staff and pupils.

We will ensure that where we care for children of critical workers and vulnerable children on site, we ensure appropriate support is in place for them. This will be bespoke to each child, and be childcare in nature, not education.

Supporting children in school

We are committed to ensuring the safety and wellbeing of all our students. We will continue to be a safe space for all children to attend and flourish.

The Headteacher will ensure that appropriate staff are on site and staff to pupil ratio numbers are appropriate, to maximise safety.

We will refer to the Government guidance for education and childcare settings on how to implement social distancing and continue to follow the advice from Public Health England on handwashing and other measures to limit the risk of spread of COVID19.

We will ensure that where we care for children of critical workers and vulnerable children on site, we ensure appropriate support is in place for them. This will be bespoke to each child but will not follow the normal routines or support offered through EHCPs.

Where we have concerns about the impact of staff absence – such as our Designated Safeguarding Lead or first aiders – it will be discussed urgently with the Board of Directors.

Peer on Peer Abuse

We recognise that during the closure a revised process may be required for managing any report of such abuse and supporting victims.

Where a school receives a report of peer on peer abuse, they will follow the principles as set out in part 5 of KCSIE and of those outlined within of the Safeguarding Policy.

The school will listen and work with the young person, parents/carers and any multiagency partner required to ensure the safety and security of that young person. Concerns and actions must be recorded and appropriate referrals made.
