Christmas Fair

This is a reminder that the Christmas Fair will be happening on the 1st December. Each class will be responsible for a stall and the children will apply their knowledge from the financial education topic Money, Money, Money in order to make a collective whole school profit. We look forward to seeing you there!

Swimming

Our Y5 children have been learning to swim as part of their PE curriculum. They have demonstrated great resilience during these lessons, with many of them reaching the required standard.

Book Fair

Thank you for supporting our school by purchasing books and stationery at the book fair. A staggering £993.87 was raised and school will receive half of that amount to spend on quality books for the children.

Whatsapp

We have been communicating with parents regarding our concerns around WhatsApp groups. We have now been made aware that some of the groups have been edited to ensure the messages disappear after 24 hours. This is worrying as this may suggest that these messages are inappropriate and need to be hidden.

The police have asked us to pass on their advice that parents reinforce the messages about appropriate behaviour on any social media platform.

Pupil Council

We have a new Pupil Council who are working with staff to make our school even more amazing than it is already. They have decided that their first project is to tidy up the environment. This includes the hall floor at lunch, corridors and classrooms during the day and litter in the playground. We are very proud of their dedication to excellence!!

Experiences

We understand that providing rich experiences for our children, as part of our wider curriculum offer, is important. A local artist has visited our school and worked with the children in Y3/4 to produce some amazing watercolour artwork and our Y6 children have visited the theatre to watch a Shakespeare play, an experience we know they'll remember for a long time to come.

Enquiry

Principals and teaching staff from other Enquire schools have been and spent a day at Cloverfields. They visited each classroom and talked to staff and children about their teaching and the learning they saw.

We were very impressed with the children's respectful behaviour and the way they articulated their learning during lessons.

Reports

This year, you will receive your child's school report during the Spring term. It will clearly communicate to you what your child has been learning and what they need to be able to know or do by the end of the academic year in order to improve.

By receiving the report earlier in the year, together we will be able to support your child to achieve their targets.

Compass Go

Supporting children with their mental health is important to us therefore Compass Go have been in to work with our Y6 children. They have supported them by teaching them techniques they can use to manage stress, linked to test situations. We know that this will be useful to help prepare them for the end of Y6 and for secondary school.

Compass Go will be running a parent workshop on Wednesday 16th November from 4-5pm.

Cloverfields is keen to support parents' understanding of anxiety and what is normal vs what needs further support. Places on the workshop can be booked via MCAS after half term
