School Parking

As we have new parents and grandparents picking up and collecting children we thought now would be a great time to reiterate our school parking. **Please do read** and ensure that all motorists including grandparents and carers who come to our school are aware of this as we have these measures in place to keep our children and others safe at these times.

The yellow zig-zag lines by our gates. Due to the presence of signage the zig-zags are legally enforceable between the hours of 8am and 6pm Monday to Friday, . Lancashire Parking Services are undertaking **targeted deployment of Civil Enforcement Officers** to deter parking around schools. They have been informed about our own zig-zags outside school. We ask that our parents and carers do not park on these.

Turning vehicles around. The driveway of **Lodge Court (opposite and to the left of our school gates)** is private and also poses a danger due it being situated next to a bend and a crash could ensue through the speeding of other vehicles, an issue which unfortunately we cannot control.

We do appreciate that it is hard for traffic, especially as it is also **not permitted for vehicles to turn around in the school driveway or apron.** However **Inskip Baptist Chapel** (on the left just past school as you head out of Inskip) have very kindly permitted our parents and carers vehicles to turn around on their carpark and this is what we would encourage you to do.

Thank you very much for your help and consideration in helping keeping our children and others safe around our school.

Our Christian value theme this half term is

'Friendship'.

Here's a way of exploring this theme at home.

READ TOGETHER...

Through the roof

Jesus reached a town called Capernaum and made his way to a house near the town gate. The crowd had gathered quickly and now even more people were pushing and squeezing into the small house, wanting to see him, hear him and touch him.

The excitement was infectious and four **friends** who lived in a street nearby soon heard the news. They met together and decided that they absolutely *had* to take their **friend** Joshua to Jesus. Joshua was paralysed and couldn't walk. They'd heard that Jesus performed miracles and could heal the sick. This was a chance they couldn't miss.

Wasting no time they carried their **friend** on his bed mat to the house, but jostling crowds blocked the doorway. They couldn't give up now. Their **friend** *must* meet Jesus. There was only one way. They carried him on to the flat roof of the house and carefully removed part of the roof to make a large hole.

Knotting ropes to the corners of the bed mat they gently lowered Joshua down right in front of Jesus. Imagine the surprise of all the people looking on. But Jesus smiled kindly at Joshua. "Take up your bed, and walk" he said. Slowly, falteringly and hardly daring to believe it was happening, Joshua stood and took a step forward. He could walk. He could actually walk! Thanks to Jesus and his **friends**, Joshua's life was changed forever!

Online Activity

We all want our children to be safe online and with that in mind we will be providing you with information about online behaviours, apps and games which will be useful to you in supporting your child to stay safe. This will also support the daily teaching of online safety at school.

This week we inform parents and carers about 'ESports'. We are aware that some children in primary schools have been using this website.

Please also take a look on our website at [Our Safeguarding](#) page where you will discover a

At National Online Safety we believe in empowering parents, carers and trusted adults with the information they need to hold an informed conversation about online safety with their children, should they feel it is needed. This guide focuses on one platform of many which we believe trusted adults should be aware of. Please visit www.nationalonlinesafety.com for further guides, hints and tips for adults.

Omegle is a website that pairs random strangers for live text or video chats. It first launched in 2009 and its slogan is "Talk to strangers!" There is an option for adult (18+) content and a section for people aged 13+ with parental permission. Anyone can use the site. Users simply go to Omegle.com and then choose 'Text' or 'Video' chat and the page states how many users are currently online. Depending on the time of day this can be hundreds of thousands. Omegle markets itself as a great way to meet new friends however has been known to feature pornography and inappropriate content within chats, so it's important parents are aware of the risks associated with the site.

What parents need to know about OMEGLE

NO AGE VERIFICATION MEASURES

Omegle is completely free to use and allows users to communicate with others without the need to register, supply an email address or create a profile. This means users can remain anonymous and it's hard to trust who your children are talking to. Furthermore, there are no age verification measures and other than agreeing to the terms and conditions, your child can easily start online engagement with strangers and potentially access more adult themed content.

RISK OF CYBERBULLYING

The anonymity of Omegle can increase the risk of cyberbullying on the site. Engaging in chat with strangers means that topics of conversation can lead almost anywhere including discussions about looks, body image or the sharing of other personal information. With the availability of video chat as well, this could lead to children being coerced or forced into carrying out activities online which could then be used against them.

UNMODERATED CHAT

Omegle encourages video chat as much as it can, prompting users during their text chat to activate their web cam. Whilst text chat has a degree of moderation, the content in Omegle's video chat rooms is not moderated by administrators and, at any time of the day, there can be thousands of users online. This means that your child could easily come across illegal, unacceptable or inappropriate images or media. Omegle currently offers no function for reporting online abuse or inappropriate behaviour on its site and instead only offers advice to 'please be careful'. It also advises to 'Use Omegle at your own peril. Disconnect if anyone makes you feel uncomfortable.'

PRIVACY RISK VIA FACEBOOK

Omegle can be linked to a user's Facebook account to match their interests and likes with other users. This means that Omegle can access your child's basic Facebook information, and Facebook friends may potentially view Omegle activity. In addition, users can save the chat log and share the link without the other user's knowledge. It is not uncommon then for users to request being added to Snapchat, Instagram or WhatsApp for further interaction, moving the conversation into a more personal setting.

RISK OF EXPLOITATION

Omegle chat picks another user at random and there is very little way of verifying who your child may be chatting to. This can lead to a number of risks including catfishing (users pretending to be of similar age), identity theft (users eliciting information to commit fraud), and sexual/psychological grooming (users coercing others to act in a way or do something they wouldn't normally do).

ADULT THEMED CONTENT

Unfortunately, Omegle is infamous for its pornographic content and it is not uncommon for users to expose themselves or engage in sexual acts. If a user selects video chat, then the other user's webcam will automatically be switched on before the action to 'end chat' can be selected. There is also no 'preview' in smaller thumbnail windows. As video chat is so easy to access, it means that unintentionally viewing more mature, inappropriate or even illegal images can't always be avoided.

Safety Tips For Parents

DISCUSS RISKS WITH YOUR CHILD

It is important to speak to your child about the dangers of Omegle. Guiding and educating young children is far more useful than ignoring the possibility of Omegle being accessed. Explain to your child that Omegle is not completely anonymous and that other users will and do use Omegle to exploit others. Try to emphasise the risk of speaking to strangers and that engaging online is no different to engaging offline.

PROTECT PERSONAL INFORMATION

Omegle does not provide advice about how to protect your personal information so it's important that children are aware of what they should and shouldn't share online and with whom. If they use Omegle, always advise against sharing any personal information such as their real name, age, phone number, address or any other personal identifiable information. This also includes details of their social media accounts or gaming ID's. You should also adjust your child's Facebook settings to control what information is shared with Omegle.

REPORT CONCERNS

If your child comes across any inappropriate content or something which upsets them on Omegle, then it's important that they are able to discuss it with you and that you provide them with the support they need. If you think the content is illegal, then it must be reported to the police.

DISCOURAGE VIDEO CHAT

Try to discourage your child from using video chat on Omegle. Not only is there no filters or moderation in place, but children may be coerced into sharing intimate images or videos of themselves, which is illegal if they are under 18 and may be used against them. Omegle text chat has a degree of moderation controlled by Omegle through software and several actual moderators. The software moderates, identifies and prevents certain words and sequences of words to try and prevent bullying and grooming however is still not a 100% fail-safe.

TRY OMEGLE YOURSELF

It's always an excellent idea to get a feel for the website or app your child is using so that you can see and understand the issues and risks for yourself. More importantly, it will also provide you with first-hand experience of the risks and dangers if/when you decide to speak to your child about Omegle and what they need to be aware of.

USE PARENTAL CONTROLS

Omegle is a website chat service. Children can only access the text chat on their phone and would need access to a PC or laptop to engage in video chat. If you have genuine concerns over Omegle and don't wish your child to access the site, you can add www.omegle.com to the list of banned websites and URLs. However, it's important to remember that Omegle can still be used via a web browser on an iPad, tablet, smart TV or gaming device and similar controls would need to be implemented on each of these devices separately.
