## Online Activity

We all want our children to be safe online and with that in mind we will be providing you with information about online behaviours, apps and games which will be useful to you in supporting your child to stay safe. This will also support the daily teaching of online safety at school.

**This week we inform parents and carers about 'Reddit'.** Because of its popularity, links to Reddit frequently turn up among search engine results – so young people may be exposed to the site's content even without purposely looking for it.

Please also take a look on our website at [Our Safeguarding](#) page where you will discover our 2022-23 new academic year safeguarding.

At National Online Safety, we believe in empowering parents, carers and trusted adults with the information to hold an informed conversation about online safety with their children, should they feel it is needed. This guide focuses on one of many platforms which we believe trusted adults should be aware of. Please visit [www.nationalonlinesafety.com](http://www.nationalonlinesafety.com) for further guides, hints and tips for adults.

# What Parents & Carers Need to Know about REDDIT

Reddit describes itself as a social news website where users connect and share stories, opinions and support; debate issues; ask questions; and chat to people with similar interests. Discussion topics are organised into communities (known as subreddits) that are created, run and populated by users, who remain anonymous throughout. Free speech is encouraged, and users – or 'redditors' – can vote posts 'up' or 'down' so they get more (or less) attention. Reddit is free to join, although signing up to Reddit Premium unlocks an advert-free version of the platform.

**AGE RATING 13+**

**R/FUNNY** **R/TRENDING** **R/MEMES**

### WHAT ARE THE RISKS?

**MINIMAL MODERATION**  
As sharing opinions on Reddit is easy (and anonymous), offensive or age-inappropriate content is frequently posted. Moderation by admins and bots does occur, but can't cover every community – so Reddit relies on users voluntarily moderating these spaces. Subreddits marked NSFW (not safe for work) can contain anything from profanity to pornography, so are not suitable for under 18s.

**HARASSMENT AND TROLLING**  
If someone on Reddit doesn't agree with your child's opinion, they may feel compelled to say so – in no uncertain terms. This could lead to a public bombardment of hurtful messages. Likewise, Reddit users are highly likely to encounter trolling (where someone posts a deliberately inflammatory comment to provoke a reaction) on the platform, which can be distressing.

**FAKE NEWS**  
Absolutely anyone can post a story on Reddit, so sub-reddits are occasionally prone to bias, misinformation and opinions being repeated as if they are facts. Fake news articles often grab users' attention with catchy or controversial headlines, and Reddit is no exception. It's important that young people are able to identify fake news – and disregard it rather than sharing it.

**GIFTING AND SPENDING**  
Users can gift awards to the authors of posts that they like (thereby encouraging their favourite redditors to keep contributing) by spending Reddit Coins. This virtual currency can be bought on demand (with real money) or received as part of the paid-for premium package. Users sending a gift can also leave an anonymous private message, a feature which has been abused by groomers.

**'SUPPORTIVE' STRANGERS**  
By definition, Reddit users interact with strangers in public through their community – but also have the option to do so privately. Groomers could repeatedly up-vote a child's comments or respond encouragingly to their posts to win their trust. Once they've built a rapport, the predator then begins messaging the child in private to obtain personal details or try to lure them into meeting in person.

**NEVER-ENDING NOTIFICATIONS**  
Reddit's default is for all notifications to be on. There are a total of 28 types of notification on the platform, ranging from chat messages and comments to updates and mentions of username. This would lead to a child's device being pinged almost constantly with alerts, frequently causing them to be distracted by incoming notifications rather than being present in the moment.

## Advice for Parents & Carers

**Sort the Settings**  
Reddit's user settings can help ensure that minors don't view adult material. Under the 'Feed Settings' tab, switch the Adult Content toggle to 'off', and enable Safe Browsing Mode (this blurs out any explicit images). Also in settings, you can turn off all unnecessary notifications, to prevent your child being distracted by every post or comment on Reddit, allowing them some tech-free time.

**Rise Above It**  
If a person says something critical or offensive to your child on Reddit, it's natural that they'll want to respond. Explain to them, however, that is exactly the reaction that trolls look for. Don't give them the satisfaction; instead, report the comment to Reddit Support for investigation. Blocking a user stops them from messaging or following your child on the platform.

**Encourage Critical Thinking**  
It can often be difficult to tell if something online is real or fake – particularly for young people. It's important to encourage your child to double-check with reputable sources if what they've read is genuine. Remind them to consider what motives might be in the message – and to watch out for scams. Chatting about this regularly helps to develop critical thinking skills and good online habits.

**Avoid Private Messaging**  
Through their Reddit profile, young people can control who's able to message them privately – with options including 'no-one' and 'accounts older than 30 days'. These controls help ensure potential groomers can't talk to your child in private, and that Reddit's admins and other users will be able to moderate and report anything they spot which causes them concern.
