<p>Children should know a range of stories from the bible and from other faiths and how their meanings impact people's lives. Be aware of celebrations, symbolism and worship and it's importance in Christianity and other faiths. Identify how religion has affected people's lives and society in the past and present. Learn what important lessons people can gain from religion. Children will ask increasingly developed questions about religion, it's impact on people's lives and it's development. Children will reflect on their own spirituality and their own lives.</p>
